If you wish to average a site that should not be built on fill in this				
	If you wish to suggest a site that should <u>not</u> be built on, fill in this			
form				
REASONS WHY YOUR SITE	SHOULD BE SAFEGUARDED FROM BUILDING			
How do the public	N/A			
enjoy the space - e.g.				
used for dog walking,				
children's play?				
What makes the site	N/A			
more special than other				
areas in the				
village/town?				
Does the site have	N/A			
attractive or rare				
features such as mature				
trees, historical				
significance or				
protected wildlife?				

Landowners, developers and/or agents wishing to suggest a site should fill in the following form <u>and</u> as much as possible of the strategic environmental assessment form (at the end of this document) which assesses the environmental effects of possible development sites.

If you wish to suggest a site that should be built on, fill in this form				
REASONS FO	R YOUR DEVELOPMENT SITE SUGGESTION			
How can the site be	Access – by private track way from public road			
serviced?				
(give details of	Foul Drainage - private			
proposed access, foul				
drainage, surface water	Surface Water - SUDS			
and water supply				
arrangements)	Water Supply - mains			
	FORM CONTINUES BELOW			

REASONS FOR YO	REASONS FOR YOUR DEVELOPMENT SITE SUGGESTION			
What are the site's constraints and how can they be resolved or reduced?	No flooding issues identified by SEPA flood map. No known protected species, no good farmland will be lost, the landscape will not be			
(e.g. does the site flood, are there protected species present, will good farmland be lost, will the local landscape be affected, will valued trees be felled, are any other heritage features likely to be affected?)	adversely affected, no valued trees will be felled and no heritage features will be affected.			
What benefits will result to the wider community from the site's development? (e.g. will there be more or better jobs, will the land be put to a more productive use, will the development increase infrastructure capacity for others, will more affordable houses result, is there an unmet demand for the development?)	Provision of housing to meet market demand & Council's housing targets for new houses over the next 25years. It will also enable rurally employed persons to remain in the countryside near to their place of work.			
What impact will there be on travel patterns from the site's development? (e.g. will more or less people engage in active and healthy travel (walk / cycle) or go by public transport as a result of the site's development rather than travel by private car?)	Such a development will give people the option to cycle, take public transport or car share to their place of work.			
Is the site well connected? (e.g. will the average travel time to community and commercial facilities reduce or increase as a result of the site's development, is the proposed use compatible with existing / proposed surrounding uses?)	No change.			
Is the site energy efficient? (e.g. will the site allow for energy efficient siting, layout, building design and local renewable energy source connection?)	The site lends itself to a south-facing, energy efficient layout- presently there is no local renewable connection.			
What other negative impacts will the development have and how will they be resolved or offset? (e.g. will the site's development increase any form of pollution or decrease public safety?)	The construction of the proposed site should not add to pollution production nor have a detrimental impact on public safety.			

STRATEGIC ENVIRONMENTAL ASSESSMENT FORM

Landowners, developers and/or agents wishing to suggest a site should fill in as much as possible of the following form. Strategic environmental assessment of local development plan sites is now a statutory requirement and considers the possible environmental effects of development proposals. We will check your answers and fill in any gaps.

No.	Issue	Detailed Explanation	Answer	Any Proposed Mitigation Measures (how will you reduce or offset the effects of your development?)
1	a) Will the site safeguard any existing open space within the area?b) Will the site enable high quality open space to be provided within the area?	Will the site have any impact on useable public open space (such as parks, playing fields etc) or any opportunities to create additional public open space?	a) No b) The proposal is not of a scale to provide such community benefits; however it is rurally situated.	
2	Will the site encourage and enable provision for active travel (walking, cycling and public transport use)?	Is any part of the site within 400m straight line distance of any community/commercial building? or will development provide a community/commercial building within walking distance of existing residential areas? - Are there opportunities to create new walking/cycling routes or improve existing routes?	a) No b) No c) Yes	
3	Does the site provide an opportunity for you to provide a financial contribution towards encouraging more sustainable travel patterns?	For example, can a subsidy to a local bus route be provided?	Not to our knowledge.	
5	Will the site involve "off site" road improvements that will contribute to road safety? Is there scope for road	Is the site likely to improve the local road network such as junctions or crossings? Will development incorporate on-site traffic	n/a n/a	

	cafaty maacuras as sart	calming measures (e.g. speed humas) er		
	safety measures as part	calming measures (e.g. speed bumps) or

REASONS FOR YOUR DEVELOPMENT SITE SUGGESTION			
What are the site's constraints and how can they be resolved or reduced?	No flooding issues identified by SEPA flood map. No known protected species, the landscape will not be adversely affected, no valued trees		
(e.g. does the site flood, are there protected species present, will good farmland be lost, will the local landscape be affected, will valued trees be felled, are any other heritage features likely to be affected?)	will be felled and no heritage features will be affected.		
What benefits will result to the wider community from the site's development? (e.g. will there be more or better jobs, will the land be put to a more productive use, will the development increase infrastructure capacity for others, will more affordable houses result, is there an unmet demand for the development?)	Provision of housing to meet market demand & Council's housing targets for new houses over the next 25years. It will also enable rurally employed persons to remain in the countryside near to their place of work.		
What impact will there be on travel patterns from the site's development? (e.g. will more or less people engage in active and healthy travel (walk / cycle) or go by public transport as a result of the site's development rather than travel by private car?)	Such a development will give people the option to cycle, take public transport or car share to their place of work.		
Is the site well connected? (e.g. will the average travel time to community and commercial facilities reduce or increase as a result of the site's development, is the proposed use compatible with existing / proposed surrounding uses?)	No change.		
Is the site energy efficient? (e.g. will the site allow for energy efficient siting, layout, building design and local renewable energy source connection?)	The site lends itself to a south-facing, energy efficient layout - presently there is no local renewable connection.		
What other negative impacts will the development have and how will they be resolved or offset? (e.g. will the site's development increase any form of pollution or decrease public safety?)	The construction of the proposed site should not add to pollution production nor have a detrimental impact on public safety.		

STRATEGIC ENVIRONMENTAL ASSESSMENT FORM

Landowners, developers and/or agents wishing to suggest a site should fill in as much as possible of the following form. Strategic environmental assessment of local development plan sites is now a statutory requirement and considers the possible environmental effects of development proposals. We will check your answers and fill in any gaps.

No.	Issue	Detailed Explanation	Answer	Any Proposed Mitigation Measures (how will you reduce or offset the effects of your development?)
1	a) Will the site safeguard any existing open space within the area?b) Will the site enable high quality open space to be provided within the area?	Will the site have any impact on useable public open space (such as parks, playing fields etc) or any opportunities to create additional public open space?	a) No b) The proposal is not of a scale to provide such community benefits; however it is rurally situated.	
2	Will the site encourage and enable provision for active travel (walking, cycling and public transport use)?	Is any part of the site within 400m straight line distance of any community/commercial building? or will development provide a community/commercial building within walking distance of existing residential areas? - Are there opportunities to create new walking/cycling routes or improve existing routes?	a) No b) No c) Yes	
3	Does the site provide an opportunity for you to provide a financial contribution towards encouraging more sustainable travel patterns?	For example, can a subsidy to a local bus route be provided?	Not to our knowledge.	
5	Will the site involve "off site" road improvements that will contribute to road safety? Is there scope for road	Is the site likely to improve the local road network such as junctions or crossings? Will development incorporate on-site traffic	n/a n/a

	opportunities to	open space and paths used for public		
	enhance the present	amenity be improved? Will existing		
	green network of the	fragmentation of habitats and open spaces		
	area?	be improved? Will species be enabled to		
		move where at present there is an obstacle?		
31	Will the site provide	Is the site close to (within 1.5km) an	Yes.	
	opportunities for people	opportunity to come into contact with		
	to come into contact	nature/natural environments e.g. Local		
	with and appreciate	Nature Reserves, local greenspace, green		
	nature/natural	networks? Are there proposals which will		
	environments?	increase opportunities to come into contact		
		with nature/natural environments?		
32	a) Will the site affect any	a) Is a diversion of a core path or right of way	(a – c) No.	
	core paths or right of	required? Will there be any impact on the		
	way?	usability of a core path or right of way?		
	b) Will the site affect any	b) Will it affect an existing path in the		
	other existing paths or	Highland Path Record? Will it provide		
	outdoor access	additional access opportunities or adversely		
	opportunities?	affect access opportunities afforded by the		
		Land Reform (Scotland) Act 2003?		
		(
	c) Will the allocation	c) Will new paths be created within and		
	provide new access	beyond the site? Will any existing paths be		
	opportunities within the	improved e.g. to increase accessibility to a		
	site and linking to the	wider range of users? Will the site help to		
	path network beyond	realise priorities identified in the Council's		
	the site?	outdoor access strategy or aspirational paths		
		identified in the core path plans?		
33	Will the site have an	Are you aware if the site lies within or	No.	
	impact on the	adjacent to an un-notified Geological		
	geodiversity of the area?	Conservation Review site or Local		
	g-saltoist, of the area.	Geodiversity Site? (or other site with		
		geodiversity value e.g. distinctive landforms,		
		areas with natural processes, rock exposures		
		for study?)		
		ioi study: j		

34	Will soil quality and capability of the site be adversely affected?	Will the site result in a loss of soil due to development or removal of good quality soil from the site? Is the site on land identified as Prime Quality Agricultural Land?	No.	
35	Is the site on peatland?	Is the site within or functionally connected to an area of peatland? Would the allocation involve the disturbance of peat? If yes, how would impacts on peatland be avoided or minimised? Would any tree felling be required?	No.	
36	Will the site have any affect on the viability of a crofting unit?	Does the site represent a significant loss of good quality inbye crofting land or common grazing land?	No.

If you wish to suggest a site that should <u>not</u> be built on, fill in this form			
REASONS WHY YOUR SITE	SHOULD BE SAFEGUARDED FROM BUILDING		
How do the public	N/A		
enjoy the space - e.g.			
used for dog walking,			
children's play?			
What makes the site	N/A		
more special than other			
areas in the			
village/town?			
Does the site have	N/A		
attractive or rare			
features such as mature			
trees, historical			
significance or			
protected wildlife?			

Landowners, developers and/or agents wishing to suggest a site should fill in the following form <u>and</u> as much as possible of the strategic environmental assessment form (at the end of this document) which assesses the environmental effects of possible development sites.

If you wish to suggest a site that should be built on, fill in this form				
REASONS FO	REASONS FOR YOUR DEVELOPMENT SITE SUGGESTION			
How can the site be	Access – by private track way from public road			
serviced?				
(give details of	Foul Drainage - private			
proposed access, foul				
drainage, surface water	Surface Water - SUDS			
and water supply				
arrangements)	Water Supply - mains			
	FORM CONTINUES BELOW			

REASONS FOR YOUR DEVELOPMENT SITE SUGGESTION			
What are the site's constraints and how can they be resolved or reduced?	No flooding issues identified by SEPA flood map. No known protected species, the landscape will not be adversely affected, no valued trees		
(e.g. does the site flood, are there protected species present, will good farmland be lost, will the local landscape be affected, will valued trees be felled, are any other heritage features likely to be affected?)	will be felled and no heritage features will be affected.		
What benefits will result to the wider community from the site's development? (e.g. will there be more or better jobs, will the land be put to a more productive use, will the development increase infrastructure capacity for others, will more affordable houses result, is there an unmet demand for the development?)	Provision of housing to meet market demand & Council's housing targets for new houses over the next 25years. It will also enable rurally employed persons to remain in the countryside near to their place of work.		
What impact will there be on travel patterns from the site's development? (e.g. will more or less people engage in active and healthy travel (walk / cycle) or go by public transport as a result of the site's development rather than travel by private car?)	Such a development will give people the option to cycle, take public transport or car share to their place of work.		
Is the site well connected? (e.g. will the average travel time to community and commercial facilities reduce or increase as a result of the site's development, is the proposed use compatible with existing / proposed surrounding uses?)	No change.		
Is the site energy efficient? (e.g. will the site allow for energy efficient siting, layout, building design and local renewable energy source connection?)	The site lends itself to a south-facing, energy efficient layout - presently there is no local renewable connection.		
What other negative impacts will the development have and how will they be resolved or offset? (e.g. will the site's development increase any form of pollution or decrease public safety?)	The construction of the proposed site should not add to pollution production nor have a detrimental impact on public safety.		

STRATEGIC ENVIRONMENTAL ASSESSMENT FORM

Landowners, developers and/or agents wishing to suggest a site should fill in as much as possible of the following form. Strategic environmental assessment of local development plan sites is now a statutory requirement and considers the possible environmental effects of development proposals. We will check your answers and fill in any gaps.

No.	Issue	Detailed Explanation	Answer	Any Proposed Mitigation Measures (how will you reduce or offset the effects of your development?)
1	a) Will the site safeguard any existing open space within the area?b) Will the site enable high quality open space to be provided within the area?	Will the site have any impact on useable public open space (such as parks, playing fields etc) or any opportunities to create additional public open space?	a) No b) The proposal is not of a scale to provide such community benefits; however it is rurally situated.	
2	Will the site encourage and enable provision for active travel (walking, cycling and public transport use)?	Is any part of the site within 400m straight line distance of any community/commercial building? or will development provide a community/commercial building within walking distance of existing residential areas? - Are there opportunities to create new walking/cycling routes or improve existing routes?	a) No b) No c) Yes	
3	Does the site provide an opportunity for you to provide a financial contribution towards encouraging more sustainable travel patterns?	For example, can a subsidy to a local bus route be provided?	Not to our knowledge.	
5	Will the site involve "off site" road improvements that will contribute to road safety? Is there scope for road	Is the site likely to improve the local road network such as junctions or crossings? Will development incorporate on-site traffic	n/a n/a	

	safety measures as part of the development of the site?	calming measures (e.g. speed bumps) or street lighting? Will it incorporate the principles of Designing Streets available via: http://www.scotland.gov.uk/Publications/2 010/03/22120652/0		
6	Is the site near any existing "bad neighbour" uses?	Will the site be negatively affected by any neighbouring use? (bad neighbour uses include those that affect residential property by way of fumes, vibration, noise, artificial lighting etc). Is the site affected by any of the Physical Constraints identified in the Council's Physical Constraints: Supplementary Guidance?	No negative affect from neighbouring use.	
7	Are there any contaminated land issues affecting the site?	Are you aware if the site has been previously used for industrial or any other uses likely to cause contamination?	Not aware of any issues.	
8	a) Is the site on derelict, vacant or other land that has previously been used?	a) Has the site been identified in Scottish Government's Vacant and Derelict Land Survey (which can be found here: http://scotland.gov.uk/Publications/2010/01/26135819/0)or has the land got an existing use?	(a) The site forms part of a former plant/tree nursery	
	b) Is the site on greenfield land?	b) Will the site be located on presently undeveloped land e.g. presently or capably used for agriculture, forestry or amenity purposes?	(b) Yes.	
9	Is the site within the current settlement boundary?	Is the site within any identified settlement boundary in the Local Plan? Is it allocated for any uses?	No.	
10	Will the site affect the distinctiveness and special qualities of the present landscape character or affect any landscape designation?	Does the site conform with the Landscape Capacity Assessment (if available)? Will the site result in the removal of valued landscape features or negatively affect any key views? Is it located within or would otherwise affect a National Scenic Area or Special Landscape Area, having regard to their special qualities?	No.	

11	Will the site affect any areas with qualities of wildness? (that is land in its original natural state?)	Are you aware if the site is inside or likely to affect an area of Wild Land? (These areas are identified on Map 3 of SNH's Policy Statement, Wildness in Scotland's Countryside) and areas of Remote Coast identified by the Council, or an area of wildness identified in the draft Wild Land Supplementary Guidance?	No.	
12	Will the site affect a conservation area?	Is the site inside or likely to affect the character of a confirmed Conservation Area?	No.	
13	Will the site impact on any listed building and/or its setting?	Is there a listed building or a part of the setting "area" of a listed building within the site?	No.	
14	Will the site affect a site identified in the Inventory of Gardens and Designed Landscapes?	Is any part of the site inside the outer boundary of an Inventory "entry" or will the site affect the setting of an "entry"?	No.	
15	Will the site affect any locally important archaeological sites identified in the Historic Environment Record?	Does the site contain any features identified in the HER? If yes, will the site affect the feature?	No.	
16	Will the site impact on any Scheduled (Ancient) Monument and/or its setting?	Is there any SAM within the site boundary or will a SAM be affected?	No.	
17	a) Will the site affect any natural heritage designation or area identified for its importance to nature conservation?	a) Is any part of the site inside or likely to affect the designation (SAC, SPA, SSSI, NNR, Ramsar) or Local Nature Conservation Site?	(a) No.	
	b) Will the site affect any other important habitat for the natural heritage?	b) Is any part of the site within or likely to affect non-statutory features identified as being of nature conservation importance e.g.	(b) No.	

		Ancient, Semi-Natural or Long-Established Woodland Inventory sites, priority BAP habitats, habitats included on the Scottish Biodiversity List, non-designated habitats listed in Annex 1 of EC Habitats Directive?		
18	a) Will the site affect any protected species?	a) Will the site affect any European Protected Species, Badgers and species (birds, animals and plants) protected under the Wildlife and Countryside Act 1981 as amended. If such a species may be present on or near the site, a survey should be carried out to inform this assessment (for which a licence from SNH may be required)	No known species protected by WCA 1981 will be affected.	
	b) Will the site affect any other important species for the natural heritage?	b) Will the site affect species listed in the UK and Local BAPs, the Scottish Biodiversity List and relevant annexes of the EC Habitats Directive?	No.	
19	Is the site proposed to provide any form of renewable energy?	For example, will the site provide or be capable of providing a district heating system, solar panels of a wind turbine?	No – but individual properties may install solar panels or ground source heat systems	
20	Is any part of the site at risk from fluvial or coastal flooding as shown on SEPA's flood map or from local knowledge?	Are you aware of any part of the site being within the 1 in 200 year flood risk contour as identified by SEPA? (which can be found here: http://www.sepa.org.uk/flooding/flood-risk-maps/view-the-map.aspx)	No.	
21	Will development of the site result in the need for changes in land form and level? If yes, how will soil and drainage issues be addressed?	Will there by any change in rate, quantity, quality of run-off plus groundwater impact on or off site? If so, will these affect priority habitats, especially blanket bog?	Not aware of any issues.	
22	Is there a watercourse, loch or sea within or adjacent to the site? If yes, how will the water	Will there be any culverting, diversion or channelling of existing watercourses?	No.	

	environment be protected from		
	development?		
23	Will the site offer opportunities for sustainable waste management?	Will the waste produced by the site be minimised and processed close to source in a sustainable way?	Not known at this time.
24	Can the site be connected to the public water and sewerage system?	Can the site be connected at reasonable cost? If not, what alternative is proposed?	Public Water – Yes. Public Sewer – No.
25	Will the site require alteration to the local landform?	Can the site (including access) be developed without significant re-contouring etc.? Will access tracks and parking areas have significant cut and fill?	No.
26	Will the site affect or be affected by coastal erosion or natural coastal processes?	This will be noted on any relevant shoreline management plan.	No.
27	Is the site sheltered from the prevailing wind and does it have a principal aspect between SW and SE?	Will development make best use of the site in terms of energy efficiency?	The site is capable of an energy efficient layout, with a principal aspect of between SW and SE.
28	Will the site have any impact upon local air quality?	Is the site near areas of employment or close to public transport? Such developments are less likely to result in additional traffic which may contribute to air pollution.	No.
29	Will the site have an impact on light pollution levels?	Is it likely that the Council policy likely will require street lighting at this location? Are there proposals for floodlighting on the site?	No.
30	a) Will it the site affect the present green network of the area?	a) Will the site affect features that currently provide for the movement of species and/or people e.g. woodland, hedgerows, field margins, watercourses, coastlines, tree belts, greenspace?	(a & b) Not known at this time.

	1 \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \	1.3.4.6.1.6.1.		
	b) Will the site provide	b) Will connectively of natural features or		
	opportunities to	open space and paths used for public		
	enhance the present	amenity be improved? Will existing		
	green network of the	fragmentation of habitats and open spaces		
	area?	be improved? Will species be enabled to		
		move where at present there is an obstacle?		
31	Will the site provide	Is the site close to (within 1.5km) an	Yes.	
	opportunities for people	opportunity to come into contact with		
	to come into contact	nature/natural environments e.g. Local		
	with and appreciate	Nature Reserves, local greenspace, green		
	nature/natural	networks? Are there proposals which will		
	environments?	increase opportunities to come into contact		
		with nature/natural environments?		
32	a) Will the site affect any	a) Is a diversion of a core path or right of way	(a – c) No.	
	core paths or right of	required? Will there be any impact on the		
	way?	usability of a core path or right of way?		
	b) Will the site affect any	b) Will it affect an existing path in the		
	other existing paths or	Highland Path Record? Will it provide		
	outdoor access	additional access opportunities or adversely		
	opportunities?	affect access opportunities afforded by the		
		Land Reform (Scotland) Act 2003?		
		(
	c) Will the allocation	c) Will new paths be created within and		
	provide new access	beyond the site? Will any existing paths be		
	opportunities within the	improved e.g. to increase accessibility to a		
	site and linking to the	wider range of users? Will the site help to		
	path network beyond	realise priorities identified in the Council's		
	the site?	outdoor access strategy or aspirational paths		
		identified in the core path plans?		
33	Will the site have an	Are you aware if the site lies within or	No.	
	impact on the	adjacent to an un-notified Geological		
	geodiversity of the area?	Conservation Review site or Local		
	g-saltoist, of the area.	Geodiversity Site? (or other site with		
		geodiversity value e.g. distinctive landforms,		
		areas with natural processes, rock exposures		
		for study?)		
		ioi study: j		

34	Will soil quality and capability of the site be adversely affected?	Will the site result in a loss of soil due to development or removal of good quality soil from the site? Is the site on land identified as Prime Quality Agricultural Land?	No.	
35	Is the site on peatland?	Is the site within or functionally connected to an area of peatland? Would the allocation involve the disturbance of peat? If yes, how would impacts on peatland be avoided or minimised? Would any tree felling be required?	No.	
36	Will the site have any affect on the viability of a crofting unit?	Does the site represent a significant loss of good quality inbye crofting land or common grazing land?	No.
