Site Forms

YOUR DETAILS		
-	Richard Heggie Director, Urban Animation 22 Westhall Gardens, Edinburgh EH10 4JQ	
Landowner's Name (if known / applicable) Agent (if applicable)	Mr A Dunbar Urban Animation	
Agent's Address / Contact Details (if applicable)	22 Westhall Gardens, Edinburgh EH10 4JQ	

DETAILS OF SITE SUGGESTED		
	Land West of Kinellan Drive, Strathpeffer	
Site/Local Name (if different from above		
Site Size (hectares)	1.75	
Grid Reference (if known)		

Proposed Use (e.g. housing, affordable housing, employment, retail, waste, gypsy traveller, utility, community, retained public open space)	Housing. The site is currently allocated in the Ross and Cromarty East Local Plan, along with adjacent land in other ownership. The site remains deliverable and is part of the effective housing land supply. The Local Plan suggests no ransom arrangements may be imposed upon parts of the site which will provide later phases of development. The Planning Department will be interested to know that the Council's own legal department is in fact attempting to impose ransom conditions throughout this development area, in contravention of its own policy. This endangers the viability of the
Proposed Non Housing Floorspace / Number of Housing Units (if known/ applicable)	None.
Мар	Attached.

If you wish to suggest a site that should <u>not</u> be built on, fill in this form

REASONS WHY YOUR SITE SHOULD BE SAFEGUARDED FROM BUILDING

How do the public enjoy the space – e.g. used for dog walking, children's play?	
What makes the site more special than other areas in the village/town?	
Does the site have attractive or rare	
features such as	
mature trees,	
historical significance or protected wildlife?	

Landowners, developers and/or agents wishing to suggest a site should fill in the following form <u>and</u> as much as possible of the strategic

environmental assessment form (at the end of this document) which assesses the environmental effects of possible development sites.

If you wish to suggest	a site that should be built on, fill in this form
	YOUR DEVELOPMENT SITE SUGGESTION Site is already identified as a deliverable
serviced?	housing site in the RACE Local Plan. Access
(give details of	and services are available locally and can be
proposed access, foul drainage, surface water and water supply arrangements)	upgraded as necessary.
-	ORM CONTINUES BELOW

REASONS FOR YO	UR DEVELOPMENT SITE SUGGESTION
What are the site's constraints and how can they be resolved or reduced? (e.g. does the site flood, are there protected species present, will good farmland be lost, will the local landscape be affected, will valued trees be felled, are any other heritage features likely to be affected?)	No significant constraints – site is included in the established housing land supply and is deliverable. However, please note comments above relating to Council's ransom ambitions.
site's development?	Affordable housing to meet Highland Council requirement, based on local needs assessment. Suitable location for planned expansion of the conservation village, providing an opportunity to enhance the established character.
What impact will there be on travel patterns from the site's development? (e.g. will more or less people engage in active and healthy travel (walk / cycle) or go by public transport as a result of the site's development rather than travel by private car?)	Site is within walking distance of the school, village centre and other facilities. Good access to edge of settlement walks and countryside. Limited impact on local road network. Increased population will provide further support for existing rural bus routes.
Is the site well connected? (e.g. will the average travel time to community and commercial facilities reduce or increase as a result of the site's development, is the proposed use compatible with existing / proposed surrounding uses?)	No change to accessibility for existing residents. Site integrates well with surrounding town edge and landscape / topography.
	Site slopes gently to the south east and therefore has a good solar aspect. Reasonably well screened from prevailing wind by topography and existing woodland.
What other negative impacts will the development have and how will they be resolved or offset? (e.g. will the site's development increase any form of pollution or decrease public safety?)	No significant impacts beyond typical housing development.

STRATEGIC ENVIRONMENTAL ASSESSMENT FORM

Landowners, developers and/or agents wishing to suggest a site should fill in as much as possible of the following form. Strategic environmental assessment of local development plan sites is now a statutory requirement and considers the possible environmental effects of development proposals. We will check your answers and fill in any gaps.

No.	Issue	Detailed Explanation	Answer	Any Proposed Mitigation Measures (how will you reduce or offset the effects of your development?)
1	safeguard any existing open space within the	Will the site have any impact on useable public open space (such as parks, playing fields etc) or any opportunities to create additional public open space?	Amenity open space can be provided within the development and surrounding woodland could be consolidated.	
2	and enable provision for active travel (walking, cycling and	Is any part of the site within 400m straight line distance of any community/commercial building? or will development provide a community/commercial building within walking distance of existing residential areas? – Are there opportunities to create new walking/cycling routes or improve existing routes?	walkable and convenient new footpath connections and routes can be	
3		For example, can a subsidy to a local bus route be provided?	This is unlikely. The site provides easy access to existing bus services and improve their viability.	

4	"off site" road	Is the site likely to improve the local road network such as junctions or crossings?	No.	
5	Is there scope for road safety measures as part of the development of the site?	Will development incorporate on-site traffic calming measures (e.g. speed bumps) or street lighting? Will it incorporate the principles of Designing Streets available via: http://www.scotland.gov.uk/Publications/2010/03/22120652/0	Development can incorporate Designing Streets principles and ensure Safe Routes to School are consolidated.	
6	existing "bad neighbour" uses?	Will the site be negatively affected by any neighbouring use? (bad neighbour uses include those that affect residential property by way of fumes, vibration, noise, artificial lighting etc). Is the site affected by any of the Physical Constraints identified in the Council's Physical Constraints: Supplementary Guidance?	No.	
7	Are there any contaminated land issues affecting the	Are you aware if the site has been previously used for industrial or any other uses likely to cause contamination?	No.	
8	derelict, vacant or other land that has previously been used?	a) Has the site been identified in Scottish Government's Vacant and Derelict Land Survey (which can be found here: http://scotland.gov.uk/Publications/2010/01/26135819/0)or has the land got an existing use?	This is a greenfield site and a natural extension to the village.	
	greenfield land?	b) Will the site be located on presently undeveloped land e.g. presently or capably used for agriculture, forestry or amenity purposes?		

9	current settlement	Is the site within any identified settlement boundary in the Local Plan? Is it allocated for any uses?	Yes, as indicated in the RACE Local Plan.	
10	distinctiveness and special qualities of the present landscape character or affect any landscape designation?	Does the site conform with the Landscape Capacity Assessment (if available)? Will the site result in the removal of valued landscape features or negatively affect any key views? Is it located within or would otherwise affect a National Scenic Area or Special Landscape Area, having regard to their special qualities?	No. Suitable boundary treatment and planting can be incorporated.	
11	areas with qualities of wildness? (that is land in its original natural state?)	Are you aware if the site is inside or likely to affect an area of Wild Land? (These areas are identified on Map 3 of SNH's Policy Statement, Wildness in Scotland's Countryside) and areas of Remote Coast identified by the Council, or an area of wildness identified in the draft Wild Land Supplementary Guidance?	No.	
12	conservation area?	Is the site inside or likely to affect the character of a confirmed Conservation Area?	No.	
13	any listed building	Is there a listed building or a part of the setting "area" of a listed building within the site?	No.	
14		Is any part of the site inside the outer boundary of an Inventory "entry" or will the site affect the setting of an "entry"?	No.	
15	locally important	Does the site contain any features identified in the HER? If yes, will the site affect the feature?	No.	

16		Is there any SAM within the site boundary or will a SAM be affected?	No.	
17		a) Is any part of the site inside or likely to affect the designation (SAC, SPA, SSSI, NNR, Ramsar) or Local Nature Conservation Site?	No.	
	b) Will the site affect			
	any other important	b) Is any part of the site within or likely		
	habitat for the natural	to affect non-statutory features

	heritage?	Biodiversity List and relevant annexes		
		of the EC Habitats Directive?		

19	provide any form of renewable energy?	system, solar panels of a wind turbine?	likely than dedicated provision in or on houses.	
20	at risk from fluvial or coastal flooding as	Are you aware of any part of the site being within the 1 in 200 year flood risk contour as identified by SEPA? (which can be found here: http://www.sepa.org.uk/flooding/flood_risk_maps/view_the_map.aspx)	No.	
21	Will development of the site result in the need for changes in land form and level? If yes, how will soil and drainage issues be addressed?	Will there by any change in rate, quantity, quality of run-off plus groundwater impact on or off site? If so, will these affect priority habitats, especially blanket bog?	No.	
22		watercourses?	Yes, to the north. SUDS will be provided as required.	
23	Will the site offer opportunities for sustainable waste management?	Will the waste produced by the site be minimised and processed close to source in a sustainable way?	Easy access to local recycling facilities.	
24	Can the site be connected to the public water and sewerage system?	Can the site be connected at reasonable cost? If not, what alternative is proposed?	Yes.	
25	Will the site require alteration to the local landform?	Can the site (including access) be developed without significant recontouring etc.? Will access tracks and parking areas have significant cut and fill?	No significant change required.	

26		This will be noted on any relevant shoreline management plan.	No.	
27		Will development make best use of the site in terms of energy efficiency?	Reasonably well sheltered and south esatern aspect.	
28	quality?	Is the site near areas of employment or close to public transport? Such developments are less likely to result in additional traffic which may contribute to air pollution.		
29	impact on light pollution levels?	Is it likely that the Council policy likely will require street lighting at this location? Are there proposals for floodlighting on the site?	No, lighting can be designed to meet and relevant Council policies.	
30	the present green network of the area?	a) Will the site affect features that currently provide for the movement of species and/or people e.g. woodland, hedgerows, field margins, watercourses, coastlines, tree belts, greenspace?	No effect on green network. New amenity or woodland space and planting can be provided, along with access paths.	
	b) Will the site provide opportunities to enhance the present green network of the area?	b) Will connectively of natural features or open space and paths used for public amenity be improved? Will existing fragmentation of habitats and open spaces be improved? Will species be enabled to move where at present there is an obstacle?		

31	opportunities for people to come into contact with and appreciate nature/ natural environments?	Is the site close to (within 1.5km) an opportunity to come into contact with nature/natural environments e.g. Local Nature Reserves, local greenspace, green networks? Are there proposals which will increase opportunities to come into contact with nature/natural environments?	Yes, good access to country walks, ponds, natural heritage, etc.	
32	any core paths or right of way? b) Will the site affect any other existing paths or outdoor access opportunities? c) Will the allocation provide new access opportunities within the site and linking to the path network beyond the site?	or right of way? b) Will it affect an existing path in the Highland Path Record? Will it provide additional access opportunities or adversely affect access opportunities afforded by the Land Reform (Scotland) Act 2003? c) Will new paths be created within and	a. No. b. No. c. Yes.	
33	Will the site have an impact on the geodiversity of the area?	Are you aware if the site lies within or adjacent to an un-notified Geological Conservation Review site or Local Geodiversity Site? (or other site with geodiversity value e.g. distinctive landforms, areas with natural processes, rock exposures for study?)	None known.	

34	capability of the site be adversely affected?	Will the site result in a loss of soil due to development or removal of good quality soil from the site? Is the site on land identified as Prime Quality Agricultural Land?	No.	
35	peatland?	Is the site within or functionally connected to an area of peatland? Would the allocation involve the disturbance of peat? If yes, how would impacts on peatland be avoided or minimised? Would any tree felling be required?	No.	
36	affect on the viability	Does the site represent a significant loss of good quality inbye crofting land or common grazing land?	No.
