

Loading Bay & Recess Area for Event Stages surfaced with whin sets

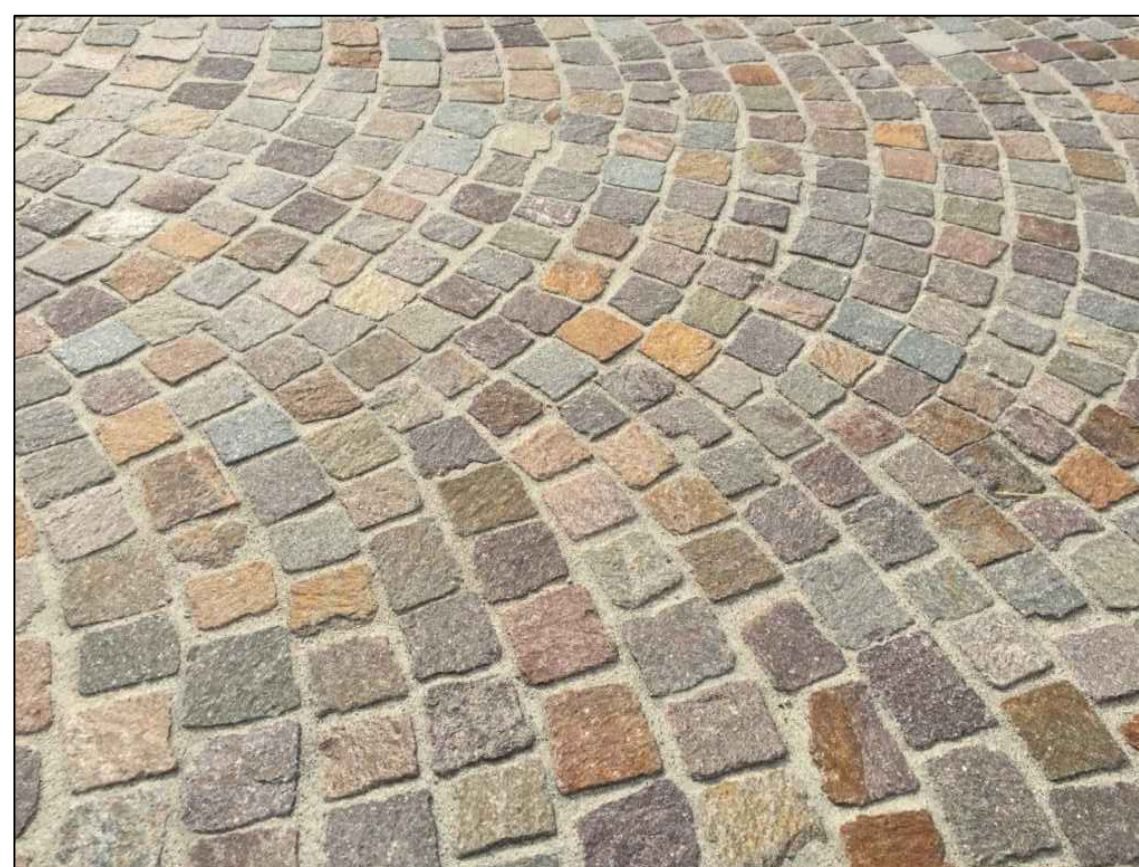

Examples of cycle stands.

The contrasting paving design segregates the pedestrian areas from the shared surface areas. Multi-toned porphyry paving defines the areas where street furniture such as benches, cycle stands, bollards, planters and trees are located.

Porphyry paving

The existing Victorian lamp standards are retained in this area.

Examples of litter bins

Taxi and disabled parking is provided in Market Square. An area to the south of the square will accommodate the electrical connection for the Christmas tree. The design allows a shared space which has the flexibility to accommodate events, whilst also providing pedestrian only access around the perimeter. Spaces can be demarcated with contrasting coloured setts.

Christmas tree connection

Examples stone bollards. Bespoke motifs or artwork can be added as required to reflect local heritage.

Examples of planters with seating

Sufficient space is allocated for potential outdoor dining areas associated with Hospitality premises.
