Performance Summary by the Highland South Area Commander – Chief Inspector Colin Gough

Summary

To provide a local summary update to Committee Members on progress with reference to the local priorities within the Highland 2014-2017 Policing Plan.

1. Priority 1- Road Safety

Road Safety remains to be the community issue of highest concern for communities within Highland. The Scottish Government's Road Safety Framework to 2020 sets out clear aims and commitments for reducing road deaths and serious injury. The Highland Division and the wider Police Scotland are committed to the outcome of safer road travel in and around our communities and will achieve this through focused, pro-active work within the Police Setting and alongside our multi-agency partners.

Road Policing within Highland now encompasses two bases in Dingwall and Fort William which incorporates the National Trunk Roads Policing Unit who focus on the main arterial routes and the Divisional Road Policing Unit who concentrate on the local routes.

casualties resulting from road collisions and improving driver/rider behaviour and awareness.

2. Priority 2- Alcohol and Drugs Abuse/Misuse

Alcohol and drug abuse and misuse continue to be a concern for communities in the Highland area. Within the Highland Division we are committed to early intervention and prevention through focussed targeting of resources and working in partnership with other agencies to reduce the associated community impacts.

- Regular licensed premises checks and collaborative working with licensees has been a key factor in reducing crime such as serious assaults and drink/drug driving.

3. Priority 3- Antisocial Behaviour/Disorder

Over the past few years there has been a significant decrease in antisocial behaviour and disorder. The overall decrease has been achieved, in part, by working with partners to tackle the very few individuals who are frequently involved in antisocial behaviour and disorder as well as having a focus on locations where problems occur.

Operation Notebook and Operation Respect are key operations which are used by Police Scotland to tackle the various elements of antisocial behaviour within Highland.

- Campaigns & Initiatives

The Doorstep Crime Campaign- Operation Monarda 2 took place between 7 April and 18 April, 2014. Doorstep crime consists of two main types of offence: bogus callers and rogue traders, both of which can have a devastating effect to victims. The campaign was run along with partner agencies- Trading Standards, Vehicle and Operator Services Agency (VOSA) and Scottish Environment Protection Agency (SEPA) and aimed to increase awareness among communities of this despicable crime and give confidence in being able to deal with those who cold-call.

The Farm Watch scheme was introduced to help combat and prevent criminal activity within the farming and wider rural community by establishing and developing trust and communication pathways between members of the rural community and Highland Division. Recent successes of the scheme include a high risk missing person being traced safe as a result of a Farm Watch message. Currently there are 254 members of Farm Watch across the Highland area.

5. Priority 5- Protecting People

The Public Protection Unit incorporates Child and Adult Protection, Domestic Abuse Investigation, Offender Management, Rape Investigation and Sexual Offences Investigation. The unit works with Highland communities and multi-agency partners to provide a co-ordinated and consistent response to protect the most vulnerable in our communities.
