Report No	CAS/ 34/14

Cycling, Walking and Safer Streets Programme

Report by Director of Community Services

Summary

This report invites Members to approve the projects delivered through the Scottish Government funding for Cycling, Walking and Safer Streets for the Caithness & Sutherland area, as set out in **Appendix 1**.

1. Introduction

- 1.1 The Cycling Walking and Safer Streets (CWSS) Programme is funded directly by the Scottish Government. The programme aims to encourage sustainable and active travel to school by improving safety and removing barriers to walking and cycling. It also aims to encourage more people to think about their travel decisions.
- 1.2 Highland Council Road Safety Unit work with Schools to produce a School Travel Plan (STP) which focusses on the journey to/from school and demonstrates the school's all-round commitment to develop Safer Routes to School (SRTS) and achieve a modal shift on the school run. A STP seeks to:
- Encourage pupils, parents and staff to think about travel choices and choose alternatives to the car when coming to school
 - Encourage 'active' travel like walking and cycling
 - Measure change and shifts in travel behaviour
 - Make the routes to school safer for pupils
- 1.3 Further information on SRTS can be found at www.highland.gov.uk/srts.
- 1.4 This report supports the Programme for the Highland Council to provide more safe cycle tracks and "walk to school" pathways where appropriate, and will encourage healthier and greener methods of travel. By enabling a modal shift to active travel, this will support the Council's Carbon CLEVER initiative by reducing carbon emissions.

2. Funding

- 2.1 The CWSS programme has a budget of £348,000 for 2014/15 that is provided by the Scottish Government. The terms and conditions of the grant include a request to consider a minimum spend of 36% (and preferably 50%) on cycling related projects.

2.2 Through the development of the STP, schools can normally bid for up to £30,000 of CWSS funding in any one year to implement measures that will improve safety on routes to school and encourage active travel. If their funding bid is successful these schemes are project managed by the Road Safety Unit. In certain circumstances, for example extended lengths of footpath or difficult ground conditions, bids in excess of £30,000 can be considered, and in these situations the reasons for the additional costs are highlighted to Members.

2.3 A Small Grant Funding element exists in the scheme which allows projects up to the value of £3,000 to be approved by the Road Safety Unit allowing immediate implementation of these small projects.

3. Projects for Approval

3.1 **Appendix 1** details the funding applications to be approved by the Caithness & Sutherland Area Committee on the 23rd of September 2014.

3.2 The costs detailed are estimated at present and if the proposals are approved the schemes will be put out to tender and implemented on a priority basis to allocate the funding available.

3.3 Small Grant Funding allocated from the 2014/15 budget to Caithness & Sutherland Schools amounts to approximately £4,600 for road safety education resources, footprints, stop/look/listen signs and line marking.

4. Implications

4.1 Resource Implications

The projects listed in **Appendix 1** will be funded from the CWSS Programme 2014/15 that is to be used on SRTS projects. If funding in 2014/15 is insufficient any schemes not delivered will be carried forward to next financial year.

4.2 There are no legal implications arising from this report.

4.3 There are no equality implications arising from this report.

4.4 Climate Change/Carbon Clever Implications

The modal shift from cars to cycling and walking will have a positive contribution in reducing carbon emissions. This supports the Council's Carbon CLEVER initiative, which has the target of a carbon neutral Inverness in a low carbon Highlands by 2025.

4.5 This report has no adverse impact on Risk, Gaelic or Rural considerations arising from this report.

Recommendations

Members are invited to:

- (i) approve the SRTS Projects listed in **Appendix 1** and;
- (ii) note that the Road Safety Unit will continue to work with schools to develop further SRTS Projects for future years.

Designation: Director of Community Services

Date: 9 September 2014

Appendix 1

School	Purpose	SRTS Estimated Contribution	Additional information	Cycling Element
Lochinver Primary School	Install cycle storage.	£10,420	To improve cycling facilities at the school and increase the numbers cycling to school.	£10,420
Dornoch Primary School	Install road safety improvements at Evelix Road and reduce the speed limit.	£25,000	To reduce traffic speeds and improve safety for pupils crossing the road at a busy pedestrian point close to the school. Various safety measures are being considered to achieve this.	
Watten Primary School	Install pedestrian safety measures on the A882 at the Primary School.	£15,000	To provide a safe pedestrian road crossing solution.	
Mount Pleasant Primary School	Upgrade the zebra crossing to a lights controlled crossing and review positioning on Mount Pleasant Road.	£25,000	To improve pedestrian safety and improve traffic management.
