Dear Sir,

Applicant: Zoom Ltd, Zoom Takeaway, 23 Baron Taylor Street, Inverness

**Civic Government (Scotland) Act 1982 Part II
Licensing & Regulation – Miscellaneous Licences
Licence: Late Hours Catering – Exemptions under S 42(5) from the
requirement to hold a Late Hours Catering Licence**

I refer to the application received 07th October 2014 on behalf of the above named premises for the permanent variation of Late Hours Catering Licences and can advise that there is a Police objection to this application.

The Police Scotland objection is in relation to:-

- Preventing Crime and Disorder
- Securing Public safety
- Preventing Public nuisance

Police Scotland is of the opinion that the granting of this licence would be prejudicial to the attainment of these objectives for the following reasons:-

Late hour catering establishments can become a focal point for disorder if attended by large numbers of people in an intoxicated state, which is what would undoubtedly happen if they were permitted to remain open beyond the terminal hour of liquor licensed premises.

Corresponding terminal hours allows and indeed encourages patrons to leave licensed premises in time to obtain food, thus preventing congregations of intoxicated people from arriving simultaneously at catering establishments. We are concerned here with the maintenance of sensible measures to manage flash points for disorder and reduce the impact of anti-social behaviour on the night time economy and general city centre environment.

Police Scotland have always supported the granting of late hours catering licence during festive periods and on other occasions which may be of local significance, but we have always maintained that we would not support like applications if they were to become a regular feature. Whilst acknowledging the benefits of the additional trade to a small number of businesses, we cannot escape the negative aspect of the noise and public nuisance within the city centre and the dispersal to residential areas in and around Inverness as individuals make their way home.

It is for these reasons Police Scotland object to the granting of this variation to the current licence.

There is also an observation that the variation applied for would be outwith current policy.

Yours faithfully

REPORT FROM TECS (Environmental Health Service) dated 15 October 2014

LICENSING COMMITTEE 4 NOVEMBER 2014

Regarding the request for an indication as to the impact, if any, arising from the change in policy regarding late hours catering premises I would make the following comments:-

Litter

Whilst there are no figures or statistics to demonstrate the actual impact, the street cleaning staff are of the opinion that there has been an increase in litter with the City Centre over the last 18 months or so. Understandably the biggest problems mainly occur at weekends when the City Centre is at its busiest. Whilst we are therefore unable to quantify the increase incidence or correlate this specifically with the change in policy, it stands to reason that any increase in opening hours at fast food outlets would coincide with an increase in littering etc.

It is therefore important that all LHC premises within Inverness City Centre comply with Conditions 5, 7, and 8 attached to their licence. Our Service intend monitoring compliance with these conditions more closely as we lead up to the busy festive period. Our Service would therefore welcome the support of the Committee in this respect to highlight these requirements to all LHC applicants, and to take suitable action in the event we establish non-compliance at a licensed premises. To assist in monitoring compliance, our Service have now started requesting applicants provide written confirmation as to their arrangements (See attached).

Noise

Our Service is not aware of any significant impact in terms of noise or disturbance to local residents as a result of the change in policy.

Hope this is of some assistance.

Kind Regards

- Premises which have, within the 'Seasonal Variations' section of their operating plan, a statement to the effect that they will open for such extended hours as the Board has agreed for the festive period (above) will **not require to lodge applications for festive period terminal hours**.
- Premises licences which include such statements in their operating plan are requested, however, to submit to the Board and to Police Scotland, prior to 1 December 2014, notice of the dates within the festive period on which it is intended that the premises open until the festive period terminal hour for that category of premises. Please note that for certain premises, this notice requirement is a condition of the premises licence and accordingly must be adhered to.
