Portree Associated School Group Overview

Report by Area Care & Learning Manager (West)

Summary

This report provides an update of key information in relation to the schools within the Portree Associated School Group (ASG), and provides useful updated links to further information in relation to these schools.

1.0 ASG PROFILE

The primary schools in this area serve over 670 pupils, with the secondary school serving 534 young people.

A Cluster Head Teacher is in Edinbane/Dunvegan, MacDiarmid/Knockbreck, Staffin/Kilmuir, Carbost/Struan Primaries and a Head Teacher in Elgol, Raasay, Portree, Broadford and Sleat Primaries.

ASG roll projections can be found at:

http://www.highland.gov.uk/downloads/download/858/school_roll_forecasts_2014-15

There are currently no Head Teacher vacancies in the ASG and all schools receive support through the Quality Improvement Team and the Area Care & Learning Office.

1.1 Attainment and Achievement

1.1.1 Portree High School- 2015

Attainment – Performance Summary

The following report highlights the performance of the identified school for session 2014-15 using the measures now in use by the Scottish Government through its analysis tool **Insight**.

The performance measures are

Improving Attainment in Literacy and Numeracy	This gives attainment percentages for a school for Literacy and Numeracy at Levels 4 and 5 over a 5 year period.
Improving Attainment for All	This gives a measure of a school's overall attainment based on total tariff scores per pupil. It splits a school's cohort into 3 based on their overall attainment.
Tackling Disadvantage by Improving the attainment of lower attainers relative to Higher attainers	This gives a measure of a school's attainment based on total tariff scores per pupil against deprivation based on SIMD.
Increasing post-school Participation	This gives a measure of the percentage of pupils leaving

	school achieving a positive and sustained destination
Breadth and Depth All candidates	This gives an indication of attainment by looking at the number of qualifications gained
<ul style="list-style-type: none"> • Gender • LAC • Ethnicity • EAL • ASN • SIMD <p>A school itself will analyse these particular issues to see if any of them are significant</p>	

Virtual Comparator Why is the virtual comparator the key benchmark?

Insight allows schools to compare their performance to the performance of a virtual comparator, which is made up of pupils from schools in other local authorities who have similar characteristics to the pupils in this school. This is helpful because it allows a comparison based on pupils who are alike on key variables (gender, deprivation, additional support needs and stage of leaving / latest stage) that are linked to educational outcomes rather than comparison with real schools which may have quite a different pupil profile. The virtual comparator therefore controls, to a large extent, the background characteristics of pupils in this school and offers a fairer comparison.

National Benchmarking Measure:

1. Improving Attainment in Literacy and Numeracy

We are ambitious for our pupils and want as many of our school leavers as possible to be highly literate and numerate, increasing their life chances greatly. For the first time, a measure is being developed which focuses on literacy and numeracy. Curriculum for Excellence stresses the responsibility of *all* teachers for developing literacy and numeracy skills. This reflects the importance placed on these crucial skills which unlock learning in all other areas of the curriculum and are therefore vital for success in learning, life and work in the modern world and workplace.

Portree High School

<i>Literacy Level 4</i>	• <i>Portree are above their virtual comparators.</i>
<i>Literacy Level 5</i>	• <i>Portree are above their virtual comparators.</i>
<i>Numeracy Level 4</i>	• <i>Portree are above their virtual comparators.</i>
<i>Numeracy Level 5</i>	• <i>Portree are above their virtual comparators.</i>

Level 4 refers to pupils achieving a National Level 4 award for Literacy or Numeracy and will include any leavers who achieved a Standard Grade General award or Intermediate 1 award under the old exam system
Level 5 refers to pupils achieving a National Level 5 award for Literacy or Numeracy and will include any leavers who achieved a Standard Grade Credit award or Intermediate 2 award under the old exam system.

National Benchmarking Measure:

2 Improving Attainment for All

Why is this measure important?

The overall aim for this measure, together with measure four, is to have pupils attain as highly as possible 'across the board'. They concern how well a school really knows itself for all its children. This is vital if we are to make good our commitment to both raising attainment and tackling inequality.

What is the tariff score?

Each qualification (unit and course) is accredited to the Scottish Credit and Qualifications Framework (SCQF). The qualification is awarded tariff points based on its SCQF level and credit points. Points are also based on the grade of award achieved. The average tariff score for a school or other cohort is an average of the total points for each learner.

Analysis of Improving Attainment for All for Portree High School

<i>Lowest 20%</i>	<ul style="list-style-type: none"><i>Portree are above their virtual comparators</i>
<i>Middle 60%</i>	<ul style="list-style-type: none"><i>Portree are slightly below their virtual comparator</i>
<i>Highest 20%</i>	<ul style="list-style-type: none"><i>Portree is in line with their virtual comparator</i>

3 Increasing Post-school Participation

Why is this measure important?

Considering the destinations of our leavers is a vital part of ensuring that Curriculum for Excellence is a success in our schools.

<i>Post School participation</i>	<ul style="list-style-type: none"><i>Portree are slightly below their virtual comparator</i>
----------------------------------	--

4 Tackling Disadvantage by Improving the Attainment of Pupils in the Lower SIMD Deciles Relative to the Attainment of Pupils in the Higher SIMD Deciles

The overall aim for this measure is to have our pupils attain as highly as possible 'across the board'. This is vital if we are to make good our commitment to both raising attainment and tackling inequality.

<i>Portree HS</i>	<i>Tends to perform in line or above the national average at most deciles but slightly below the national average for decile 6.</i>
-------------------	---

5. Breadth and Depth: Leavers

This considers the performance of the pupils in the school at the point of exit. This consists of a mixed cohort of pupils - all of those in a school session who left, whether in S4, S5 or S6.

The measures allow a school to consider the number of awards per SCQF Level, shown in percentages

Portree HS

Portree HS performs slightly above its virtual comparator in levels 1-4, but slightly below its virtual comparator at Level 5 and level 6 awards.

Free School Meal information extracted from Healthy Living Survey collected February 2016 Free Meals Eligibility is the percentage of the present school roll registered for free meals. Free Meals Uptake is the percentage of those present on census day who were registered and took free meals.

The comment "small school/number" indicates that because of the small numbers of pupils in the school or the small numbers registered for free school meals this information cannot be disclosed.

National comparator information will be available in June 2016.

School staff information from Staff Census collected Sept 2015. Please note that only certain types of teaching posts are counted here: Normal complement, Long term sick absence replacement, secondment replacement, maternity leave replacement, other replacement, temporary contract, covering a vacancy. Teachers who teach at the school but are centrally employed are excluded.

Pre-school staff information has been taken from the Pre-School Census returned to the Scottish Govt in September 2015.

Core staffing is calculated using the Highland Staffing Model, which takes account of national agreements for P1 to P3 class sizes. As a result, all primaries in this ASG are staffed according to the model. The Primary Staffing Arrangements are currently being revised and the new Highland Staffing Model will be shared in due course.

In addition to core staffing for each school, a model will be used to provide an appropriate level of ASN cover to each school within the ASG. This model was approved at Adult and Children's Services Committee, 26th September 2012 (Item 9a). Report [ACS-33-12](#).

This session we are funding additional staffing for the ASG as follows:

- 10.85 FTE ASN teachers
- 1230.91 PSA staff hours

The identified level of need at start of session was:

3	Pupils at level 2
56	Pupils at level 3
23	Pupils at level 4
