

Highland Council

**Skye Committee
5 October 2016**

Agenda Item	4
Report No	SR/16/16

**Police- Area Performance Summary
Report by the South Area Commander**

Summary

To provide a local summary update to Committee Members on progress with reference to the local priorities within the Highland 2014-2017 Policing Plan.

Introduction

In 2014 the Highland Local Policing Plan was considered by the Community Safety, Public Engagement and Equalities Committee (now Communities and Partnerships Committee) and the Education, Children and Adult Services Committee before being approved by full council; the plan sets out the policing priorities and objectives which the 3 Highland Area Commands of the Highland and Islands Division for 3 years from 2014-2017.

We are now in the 4th year as Police Scotland and the 3rd and final year of the current Highland Local Policing Plan, we continue to adapt and review local process and plans to ensure that we continue to meet the needs of communities.

The service has taken tangible steps over the last year to better capture the views and voices of communities, most notably through the “Your View counts” Campaign and consultation with Community councils. The results of these consultations will be fed back to communities and will also form part of the process of consultation which will shape the 2017 Highland Local Policing Plan.

The Skye Committee sits within the South Highland Area Command of the Highland and Islands Divisional Policing Structure. The Skye Committee covers 1 Multi-Member Ward which has 3 priorities:

Counter Terrorism (CONTEST)

CONTEST is the UK Government's Counter terrorism strategy and looks at the four stands of Pursue, Protect, Prepare and Prevent.

The Prevent strand has received much attention in recent times and it looks at preventing people from becoming involved in terrorism or supporting terrorism.

Under section 26 of the Counter Terrorism Act 2015 a number of agencies have now begun to look at addressing the Prevent duty within each organisation. Within the Highland Council Skye area all relevant staff identified have now received WRAP (Workshop in Raising Awareness in Prevent) training and all other staff have received an e-learning package to work through in an effort to inform each employee what to do and who to turn to should there be a concern about an individual that they may have engaged with. A number of other staff have also received the in depth Prevent Professional Concerns (PPC) training in order to look at best practice in the event of a concern being raised and a PPC case conference having to be called and chaired by the local authority.

An integral part to Prevent's success is involving people who already have the skill and support to hand that can recognise when someone may be becoming involved in or supporting terrorism, and can help make a decision not to carry on that path, before any crime is committed.

ACT Now (All Communities Together) continues to be delivered to all senior pupil at the schools within Skye in an effort to look at extremism, in any form, within the community and the negative effect it can have on that community.

Within the Protect and Prepare strands there is representation from across our area at the Protect and Prepare sub-group from the Community Planning Partnership. Positive work within the Protect strands includes work around all sites of interest of critical and national infrastructure as well as sites that may be of a security concern.

Wildlife Crime

During the reporting period Police Scotland N Division Wildlife Crime Unit have been pro-active in the area regarding poaching and wildlife crime. The unit are also in the process of marketing an educational power point presentation that can be shown at shows, reception areas and can be distributed to members if required. Rural Watch and the CEASER property marking initiative have been promoted, members should consider joining Rural Watch and joining in the promotion of the crime prevention initiative. There continues to be much support from the public regarding wildlife matters and this is shown by the increase in reports to the Police. The continued support of members is greatly appreciated

The following report provides an overview of performance in terms of the three priorities identified for the Skye area as detailed above:

1. Priority 1- Road Safety

The impact of death and injury on our roads is significant, not only from the impact on victims and their families but to communities and the wider economy. It consistently features as a concern for the communities in Highland and Road Policing remains a priority for every officer.

We continue to work in partnership to improve road user behaviour through education, enforcement and engineering solutions. This informs our actions, using intelligence and analysis to identify priority routes and road users who may be vulnerable. Evidence has shown that a highly visible presence on our roads has a significant impact on driver behaviour. We continue to ensure our officers are in the 'right place at the right time' to employ both prevention and enforcement tactics and continue working with partners to consider the development of appropriate schemes for diversion from prosecution. We are continuing to support Local Authorities, Community and Road Safety Partnerships in delivering road safety activities.

These commitments are reflected in Police Scotland's three year Road Safety and Road Crime Strategy, published in 2015.

Over the past year the Divisional and Trunk Roads Policing Unit has increased its establishment and currently has 45 dedicated officers covering the Division who can be tasked with local issues in each of the wards.

Police Scotland continue to support the Highland Council run Driving Ambitions initiative with inputs carried out on Skye in early 2016, the next inputs will be planned for 2017

Skye Summary (1 April 2016- 31 August 2016)

There has been two fatal collisions in the Skye area during this reporting period,

- Collision between a vehicle and a pedestrian on the A87 at Sconser, the pedestrian sustained fatal injuries.
- One vehicle collision on the A87 at Broadford, The driver and sole occupant of the vehicle sustained fatal injuries

The below tables provide an overview of figures for the Skye Area; these figures relate to the reporting period -1st April 2016 to 31 August 2016:

SKYE	15/16 FYTD	16/17 FYTD	Variation
Drink/Drug Driving (Detections)	5	14	+9 (Figure includes failure to provide a specimen)

* Please note: Some of the Multi-Member Ward data results in small numbers. Where this occurs great care should be taken in the interpretation of emerging trends or percentage changes.

In this reporting year, in Skye and the wider Highland area, the tactical approach being taken by the Division involves targeting speed, use of mobile phones whilst driving and seatbelts. It is encouraging to see the numbers decreasing, we know that if we can reduce speed and ensure that people use their seatbelts and avoid the use of mobile phones whilst driving then they are less likely to be involved in a collision.

SOUTH	14/15 FYTD	15/16 FYTD	Variation
Speeding (Detections)	1293	1103	-190
Seatbelt Offences (Detections)	133	67	-66
Mobile Phone Offences (Detections)	61	32	-29

* Please note that due to system configurations the above figures are not available at multi-member ward level.

Operations/Campaigns

The following campaigns have been running recently throughout the Division:

March 2016 – Speeding Campaign, Motorcycle Weekend of Action.

April 2016 – Carriage of Dangerous Goods Operation

May 2016- 2 Motorcycle Weekends of Action, Speed Campaign,
Cycle Scotland – Give me cycle space campaign

June 2016 – Summer Drink Drive Campaign, Motorcycle Weekend of Action

July 2016 – Vulnerable road users Campaign, Truck and Bus campaign,
Motorcycle weekend of action

2. Priority 2- Drug & Alcohol Abuse

By working effectively with our partners in the Highland Alcohol and Drug Partnership and supporting campaigns such as 'Meet the Macphersons' we are working hard to reduce alcohol and drug abuse/misuse in the Highland area.

We know that this remains a priority for our communities and we recognise the detrimental impact that drugs and/or alcohol has on the quality of life of individuals, their families and the community in which they live.

Since April 2016 there has been no drug related deaths in Skye.

During this reporting period new legislation has come into effect in relation to New psychoactive substances (NPS), also controversially and incorrectly known as 'legal highs'. The production and supply of NPS products is now illegal, mere possession of these substances does not constitute an offence. Police Scotland has policies in place to robustly deal with the dangers posed by NPS. The message from Police Scotland remains there is no 'safe' way to take NPS – there is always a risk. The only way of staying safe is to avoid NPS altogether.

There are currently no businesses in Skye area selling NPS. It should be noted that the vast majority of NPS is sourced from the internet and delivered to users through the mail system.

Our communities have a significant role to play in reporting suspicious activities, we rely heavily on the support of the public in supplying us with information to disrupt the supply of drugs and arrest those responsible for causing harm to our communities. Police Scotland continue to encourage any person with information to contact the police on 101 or Crimestoppers on 0800 555 111

Skye Performance Summary (1 April 2016- 31 August 2016)-

- Operation Ram is a division wide operation aimed at tackling drug offences. During the reporting period there has been enforcement action in the Skye area. Effective use has been made of stop/search powers and Misuse of Drugs Act search warrants. As a result 13 persons will be reported for possession offences, 3 further persons have been reported for supply offences detected during the reporting period. As part of Operation Ram we continue to work with key partners in order to make our streets safer and to reduce the risk to the public. Operation Ram is in addition to routine proactive drugs policing by officers on patrol.
- Regular licensed premises checks and collaborative working with licensees has been a key factor in reducing crime such as serious assaults and drink/drug driving. During the reporting period there was 179 licensed premises checks were carried out in Skye.

Throughout the coming year we will be continuing to carry out a range of initiatives with schools, youth and community groups to help raise awareness and educate young people on the dangers of New Psychoactive Substances.

SOUTH	15/16 FYTD	16/17 FYTD	Variation
Supply of Drugs or being concerned in the supply of drugs (Detections)	8	17	+9 (This figure includes detections for drugs supply, productions and cultivations)

* Please note that due to system configurations the above figures are not available at multi-member ward level.

Police Scotland has now established a National Stop and Search Unit to provide scrutiny and governance around the use of this policing tactic.

3. **Priority 3- Dishonesty**

Although the likelihood of being a victim of crimes such as housebreaking, thefts and bogus caller fraud is small, when they do occur they have a disproportionate effect on individuals, families and communities in respect of their feelings of safety.

The most recent National Doorstep Crime Campaign- Operation Monarda ran between 26th April and 2nd May 2016.

Activity centred on two main themes

Multi agency day of action; this involved road side stop/checks of commercial vehicles. Staff from 5 partner agencies worked together to check vehicles and occupants. As a result of this a number of commercial vehicles were removed from the road due to serious mechanical defects. On this occasion no bogus workman were detected in the Highland area. The Multi agency days of action have ran successfully for 3 years and have undoubtedly contributed to the 13% reduction in reported bogus workmen crimes over the last year. As a Division we are working hard to ensure that the area becomes undesirable for bogus workmen due to the high chance of enforcement action.

Local Days of Action enable the Division to utilise additional resources to carry out preventative work; during this reporting period banks, building societies, post offices and building merchants were visited and given advice on how to protect their customers from the activity of bogus workmen. This has had immediate benefits with banks preventing vulnerable customers completing suspicious transactions until it can be confirmed all is in order.

Skye Performance Summary (1 April 2016- 31 August 2016)-

SKYE	15/16 FYTD	16/17 FYTD	Variation
Number of Thefts by Housebreaking (Dwelling house, Non-dwelling, Other premises)			
TOTAL:	3	1	-2
Theft by Shoplifting			
TOTAL:	2	2	=
Number of Thefts from motor vehicles (This figure includes opening lockfast places- motor vehicle, theft of and from a motor vehicle and attempted theft of a motor vehicle).			
TOTAL:	2	4	+2

Please note: Some of the Multi-Member Ward data results in small numbers. Where this occurs great care should be taken in the interpretation of emerging trends or percentage changes.

- (i) **Recommendation:** The committee is invited to scrutinise and discuss the progress report and updates in relation to the 3 Priorities; Road Safety, Drug & Alcohol Abuse, Dishonesty.

T/Chief Inspector Brian Mackay
South Highland Area Commander
