

Item 9 - Question Time

To the Chair of the Community Services Committee

“Could you state, on a Ward by Ward basis, how many people are on the Highland Housing Register Waiting List, the total number of applicants on the Waiting list, the number of Council homes in each Ward and the number of allocations made in each Ward in the last financial year?”

Response to Mr A Christie

It is not possible to report this at Ward level as Housing Register information is collected and analysed at letting area. We do undertake an annual analysis which provides the information requested at local letting area level. It is a detailed report which can be accessed via the following link
