

Item 9 - Question Time

To the Chair of the Planning, Development & Infrastructure Committee

“Will you take the necessary action to ensure that arrangements are made/time allocated/an adequate opportunity is provided for the Council to consider in formal Committee the revised/amended STS oil transfer licence application, which PoCF has reportedly stated will be submitted "early in the New Year"; and to make provision for elected Councillors to review and comment on the Highland Council's updated formal representations on that revised application before they are submitted?”

Response to Mr Fraser

A response to the revised application will be presented to a meeting of the Planning, Development & Infrastructure Committee and/or the Ross and Cromarty Committee.

If a response is required outwith the Committee cycle, it will be produced by Officers in consultation with Local Members in relevant Wards and the Chair of the Planning, Development & Infrastructure Committee and submitted by the Director of Development and Infrastructure.
