

THE HIGHLAND COUNCIL

NORTH PLANNING APPLICATIONS COMMITTEE
21 February 2017

Agenda Item	4
Report No	PLN/008/17

Report by Head of Planning and Environment

SUMMARY

This report provides an update on progress of all cases within the 'Major' development category currently with the Planning and Development Service for determination and identifies those proposed applications which have Proposal of Application Notice (PAN). The report also details progress on proposals submitted under s36 or s37 of the Electricity Act 1989 on which the Council is consulted.

Recommendation – That the current position of these applications is noted.

1. UPDATE ON PROGRESS

- 1.1 Appendix 1 contains a list of all applications for Major Development currently with the Service and awaiting determination. A brief update on the progress of these applications is provided, including a likely timescale for each case to be determined.
- 1.2 Appendix 2 provides a list of all significant Electricity Act applications. It should be noted that for many of these, the Council has already provided its response to Scottish Government. Only once Scottish Ministers determine these cases will they be removed from the list. From a performance point of view, the Council is not required to meet the same target timescales expected with planning applications.
- 1.3 Appendix 3 provides a list of all Proposal of Application Notice (PANs) for which applications are yet to be submitted. Where known, expected submission dates will be provided.
- 1.4 Details for any of these applications can be obtained through the Council's e-planning portal <http://wam.highland.gov.uk/wam> by entering the respective case reference number provided.

2. RECOMMENDATION

- 2.1 That Members note the current position with these applications.

Signature: Malcolm MacLeod

Designation: Head of Planning and Environment

Author: David Mudie, Team Leader – Development Management (01463) 255205

APPENDIX 1 - MAJOR APPLICATIONS PRE-2009
