

Item 8 - Question Time

To the Leader of the Council

“What progress has been made in setting up the Highland Council Capital Board which was agreed at full Council?”

Response to Mr R MacWilliam

The Administration Budget Team has taken forward the work required to assess future capital proposals and challenge current and future service requirements. So far that Group has taken evidence from both Scottish Futures Trust and Hub North to understand more about the process and priorities for the school estate. Members of Opposition parties were invited to both these meetings.
