

Agenda Item	7
Report No	EDI 23/19

HIGHLAND COUNCIL

Committee: Environment, Development and Infrastructure

Date: 16 May 2019

Report Title: Property Revenue Maintenance Budget 2019/20 Budget Allocation

Report By: Director of Development and Infrastructure

1. Purpose/Executive Summary

- 1.1 This report sets out the allocation of the 2019/20 Property Revenue Maintenance Budget.
- 1.2 The approved Property Revenue Maintenance Budget for 2018/19 excluding fees was £5,397,400.
- 1.3 In October 2018 a budget pressure bid of £2m was submitted to deal with remedial works from fire risk assessments, statutory and regulatory backlog and the increase in costs for servicing the additional plant and equipment being installed in the property estate. A budget pressure award of £300k has been accounted for in this report.
- 1.4 A budget saving of £600k, to be taken from the property revenue budget for 2019/20 was agreed by the council in February 2019.
- 1.5 For the purposes of workload planning it has been assumed that the Property Revenue Maintenance Budget for 2019/20 will be set at the same level to that of 2018/19 with the deduction of the £600k saving and addition of the budget pressure bid factored in to provide a net decrease of £300,000 giving a total of £5,097,400.
- 1.6 Approval of proposed allocations is being sought to ensure that progress can be made on specifying and commissioning work.

2. Recommendations

- 2.1 Members are asked to approve the proposed work categories, budget allocations and project proposals for the 2019/20 Property Revenue Maintenance Budget.

3. 2019/20 Proposed Work Categories and budget allocations

- 3.1 Analysis of information from the ongoing property condition reviews, service reports and previous maintenance spend profiles has been undertaken to assess the maintenance profile requirements of the estate. To address the various property demands of the estate the Property Revenue Maintenance Budget has been allocated to:
- carry out statutory works and servicing of plant, equipment and fabric;
 - carry out statutory and planned preventative works to maintain the external/internal fabric of buildings, as well as replacing obsolete / failed mechanical and electrical installations;
 - deal with urgent/emergency/health and safety property repairs, maintain essential mechanical and electrical services as well as keeping general fund properties wind and watertight; and
 - comply with specific lease conditions on leased properties.
- 3.2 For property performance to improve it is essential that an adequate balance is set between reactive repairs and planned maintenance works. Planned maintenance should, if managed effectively, provide increased value for money compared to continually having to meet the cost of unplanned day to day repairs.
- 3.3 Best practice recommendations are that spend on property maintenance should target to at least a 70:30 split between planned maintenance and reactive. The 2019/20 budget allocations have been set to an initial target split between planned and reactive of 75% and 25% respectively.
- 3.4 The process of analysis of information from the ongoing property condition reviews, service reports, previous maintenance spend profiles and other associated information will continue to inform the maintenance requirements of the estate. This process will assist with forecasting resource requirements for the maintenance of the estate in the coming years.
- 3.5 The table in **Appendix 1** summarises proposed work categories and budget allocations for the 2019/20 Property Revenue Maintenance Budget.
- 3.6 The table in **Appendix 2** provides Ward specific lists of proposed planned / preventative projects for 2019/20.
- 3.7 Projects have been identified through a process of property condition reviews and site visits by Area Maintenance Officers in conjunction with local service providers. The current property condition and potential risk to injury/loss of service delivery have been the key factors that have influenced the inclusion of the works within the programme.
- 3.8 The proposals were forwarded to all Ward Managers during April 2019 for consultation with Members. Ward Managers are currently progressing Member consultation and some requested amendments have been made. Any further minor amendments requested via the remaining Ward Managers will be considered and subsequently reported to a future Committee.

4. Revenue Budget Monitoring

- 4.1 Information on progress with approved revenue maintenance expenditure for 2019/20

will be made available to Area Committees on a regular basis throughout the financial year.

5. Implications

5.1 Resource

- 5.1.1 Budget headings have been adjusted / redistributed to reinforce the need for fire safety related works, backlog maintenance (Planned Preventative Maintenance) and component replacement / statutory upgrades required to engineering systems.
 - 5.1.2 Reviews are on-going and it should be noted that further adjustments may be required through the year to ensure that statutory works required can be undertaken.
 - 5.1.3 Attention is drawn to the removal of the allocation for the cyclical maintenance heading which covers external and internal painting and related repairs. Savings are expected to be made by re-procuring the minor works framework and making efficiencies in the way works are carried out i.e. by using more internal resources.
 - 5.1.4 Additional budget pressures are expected during 2019/20 from the outcome of a review of maintenance of renewable heating (which is currently provided for via a dedicated fuel/maintenance contract and not included for in this budget) and the acceleration of a programme to sample lead in water in school properties (from a current 5 year plan to 1 year to meet Drinking Water Quality Regulator for Scotland requirements). Further reallocation of budget headings will be carried out and reported to Committee if required.
- 5.2 Legal - Failure to comply with statutory property legislation could lead to loss of service delivery, personal injury and potential prosecution by the Health & Safety Executive.
 - 5.3 Community (Equality, Poverty and Rural) - This report does not have any specific implications.
 - 5.4 Climate Change / Carbon Clever - This report does not have any specific implications.
 - 5.5 Risk – Failure to continue to invest in Property Maintenance may increase the risk profile associated with ensuring the safe use of premises.
 - 5.6 Gaelic - This report does not have any specific implications.

Designation: Director of Development and Infrastructure

Date: 30 April 2019

Author(s): Stuart Duncan, Property Manager
