

Item 12 - Question Time

To the Chair of the Care, Learning & Housing Committee:

“What is your assessment of the use of generic teacher interviews as a tool for workforce planning and its impact on staff morale in our schools?”

Response to Mr A Baxter

It is acknowledged that there are pros and cons with generic teacher interviews for primary schools. In view of this, the Change Team within Care and Learning are seeking views on the merits of the current process and will look at what modifications /alternative systems could be put in place which will be considered by Primary Head Teachers after the summer.
