

Item 10 - Question Time

To the Leader of the Council

“What work is being undertaken to prepare for the ban on parking on pavements as contained in the Transport (Scotland) Bill?”

Response to Mr R MacWilliam

The Council is waiting for further information from the Scottish Government on their detailed standards and guidance which they will produce for local authorities to enable a consistent approach in how the new parking restrictions will be enforced. In the meantime, obstruction of pavements continues to be a matter for Police Scotland who are still responsible for reportable traffic offences on all roads such as dangerous parking or obstruction.
