

Item 15iii - Question Time

To the Leader of the Council

“What measures can be put in place to ensure that any guidance provided by COSLA on matters such as social care delivery are disseminated across all Council Members?”

Response to Mrs M Cockburn

Thank you for raising this matter as I am considering a change. Once the new committee structure is implemented, we will consider how we can best ensure guidance from COSLA is disseminated to all members and will also consider how best to report back to Committee on the outcomes from the COSLA Boards. I would welcome your involvement in the review.
