Road Traffic Operations/Campaigns	<p>Festive Drink/Drug Drive Campaign 2019 ran between 1 December 2019 and 2 January 2020. Police Scotland is committed to achieving the Scottish Government’s 2020 casualty reduction targets. Increasing awareness of the risks associated with drink/drug driving supports the Force’s efforts to reduce road casualties. The campaign was conducted through a combination of intelligence-led high visibility patrols and static road checks.</p>				

Seven drink drivers were reported in the North Highland area, this is a decrease of -7 on the same period last year. Following the introduction of S5A Road Traffic Act 1988 in October 2019, preliminary drug drive testing is now available to officers. There were six positive drug tests obtained in the North Highland command during the campaign period.

Driver Engagement North, a multi-agency initiative makes use of an interactive driving simulator designed to assess and highlight a participant's reactions, hazard awareness and any potential vulnerabilities on the roads. The project, launched in Inverness during October, received funding from Transport Scotland and is led by Police Scotland, with support from a number of partners including the NHS, Local Authority Community Safety Groups, IAM Roadsmart, Age Concern and RoSPA. The simulator has been specially designed to assess and demonstrate a driver's reactions and abilities in a safe environment under the supervision of specialists who will be able to offer support and advice. While this initiative is aimed at older drivers, we will also be able to offer advice to family members or friends who are concerned about whether someone they know is fit to drive.
