Operation CEDAR involves proactive multi-agency enforcement operations on the roads, which sits alongside education activity and is aimed at improving the behaviour of drivers of all ages behind the wheel. Partner agencies continue to work together to gain a greater understanding of the factors which could be used to improve the safety of everyone on the roads and together respond to these issues.				

**Driver Engagement North** - A multi-agency initiative makes use of an interactive driving simulator designed to assess and highlight a participant's reactions, hazard awareness and any potential vulnerabilities on the roads. The project, launched in Inverness during October 2019, received funding from Transport Scotland and is led by Police Scotland, with support from a number of partners including the NHS Highland, Local Authority Community Safety Groups, IAM Roadsmart, Age Concern and RoSPA. The simulator has been specially designed to assess and demonstrate a driver's reactions and abilities in a safe environment under the supervision of specialists who will be able to offer support and advice. While this initiative is aimed at older drivers, we will also be able to offer advice to family members or friends who are concerned about whether someone they know is fit to drive. This initiative is not currently running due to the COVID-19 pandemic.
