

(8) Mr A Jarvie

To the Leader of the Council,

**Why do the public continue to remain in the dark about the details of how this Council spent their money on the Inverness City Arts Programme?**

*ICArts Working Group Minutes were presented for approval, in public, at meetings of the City Area Committee. The minutes are published on the Council's Website along with a series of annual reports to CIAC on the progress of the project programme and press releases. This has included financial updates on the projects. The total costs of all the projects are in the public domain as discussed at the last meeting of the City Committee on 18 November 2021.*
