The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our initial audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the organisation or all weaknesses in your internal controls. This report has been prepared solely for your benefit and Audit Scotland (under the Audit Scotland Code of Practice 2016). We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

# Plan Overview

The audit plan for the financial year ended 31 March 2021 sets out our risk based audit approach. This plan is reported to the Valuation Joint Board in draft. Planning is a continuous process and we will continue to review our risk assessment and planned approach. We expect to complete our audit planning procedures by the end February 2022 and will finalise the plan and submit to the VJB and Audit Scotland by 31 March 2022.

## Respective responsibilities

Audit Scotland has issued a document entitled Code of Audit Practice ('the Code') dated 2016 covering this audit appointment period. This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities, and that of The VJB are summarised in Appendix 1 of this plan. We draw your attention to this and the Code.

## Materiality

We have calculated planning materiality using your prior year gross investment assets as our benchmark (consistent across our PSA Scotland Pension Funds):

- £67,580 planning materiality (2% of prior year gross expenditure)
- Performance materiality of £50,685 million (75% of planning materiality)
- Trivial is £3,400 (being 5% of materiality)
- Lower materiality (£5,000) on remuneration report disclosures.

## Wider Scope Audit – smaller body arrangements

In accordance with Audit Scotland's Code of Practice, we feel it is appropriate to continue to treat you as a smaller body under the Code. In 2021/22 we will consider The VJB arrangements for ensuring financial sustainability as well as your governance arrangements in place to support disclosures contained within the annual governance statement included within your financial statements.

## Financial statement audit risks

We have not yet concluded our audit risk assessment. However, based on our audit planning, in accordance with the ISAs (UK) and FRC Practice Note 10 we have identified the following significant financial statement audit risks:

- Management override of controls (ISA UK 240)
- Risk of fraud in expenditure (cut-off) (FRC PN10)
- Risk of misstatement of defined benefit pension scheme liabilities.

We have rebutted the risk of fraud in revenue recognition as the majority of funding is via the Scottish Government. Our final risk assessment will be included in the final audit plan.

## Our Audit Fee

Audit fees were shared by Audit Scotland with the Pension Fund in December 2021. Our fee agreed with Officers is:

- £7,820 which is set at the baseline fee. This fee includes £700 related to Audit Scotland pooled costs and £360 in relation to Audit Scotland central costs.
- We reserve the right to review our fee during the audit should significant delays be encountered and/or new technical matters arise.

# Introduction

## Purpose

This document provides an overview of the planned scope and timing of the external audit of the Valuation Joint Board (the VJB) for those charged with governance. This plan is reported to those charged with governance and issued to Audit Scotland.

We are appointed by the Accounts Commission as the external auditors of the Pension Fund for the 6 year period (2016/17 until 2021/22).

## Respective responsibilities

Audit Scotland has issued a document entitled Code of Audit Practice ('the Code') dated 2016 covering this audit appointment period. This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities, and that of the VJB are summarised in Appendix 1 of this plan. We draw your attention to this and the Code.

## Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on:

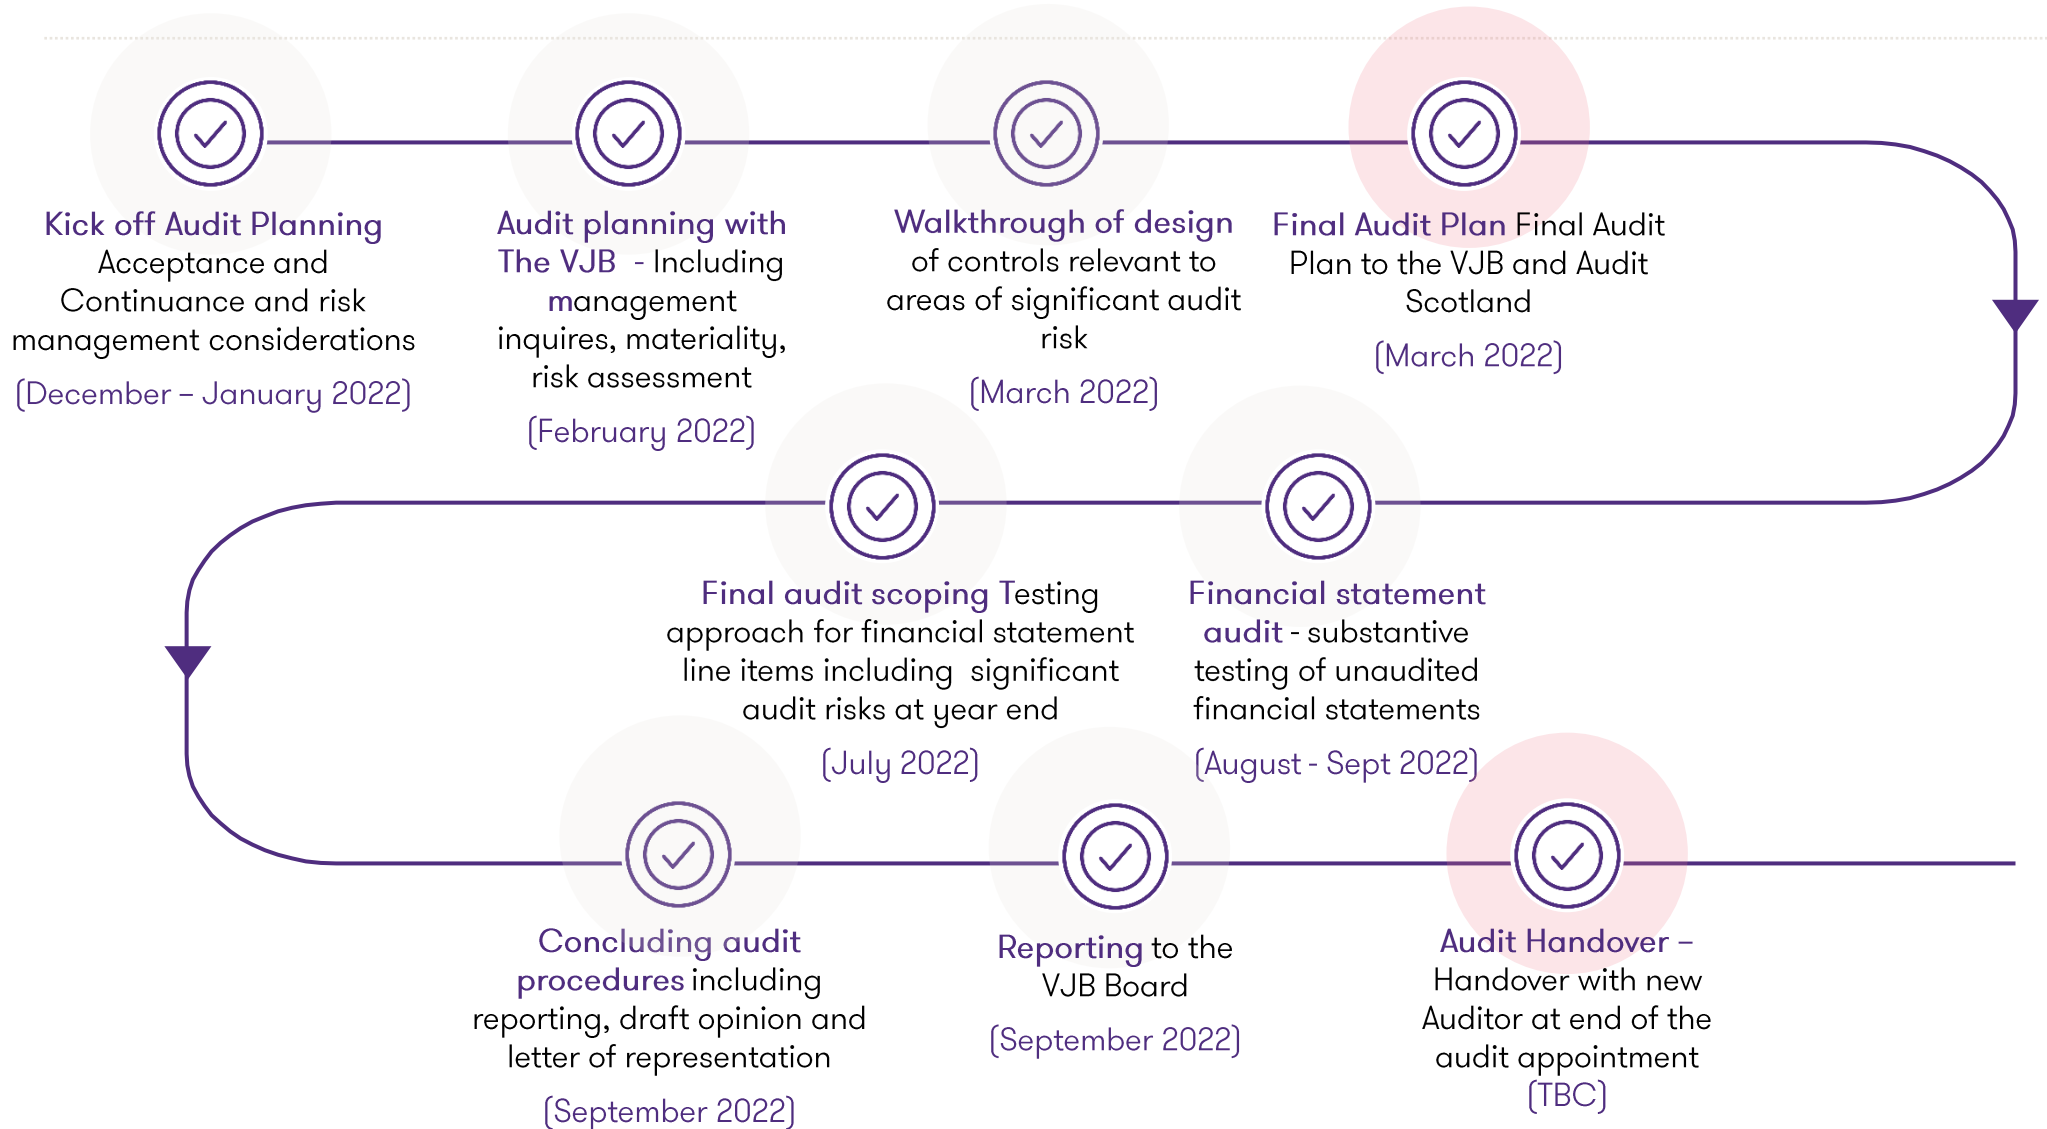

- the VJB's financial statements that have been prepared by management with the oversight of those charged with governance (the Valuation Joint Board)

The audit of the financial statements does not relieve management and those charged with governance of your responsibilities. It is the responsibility of the the Valuation Joint Board to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We will consider how the the VJB is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the VJB and is risk based.

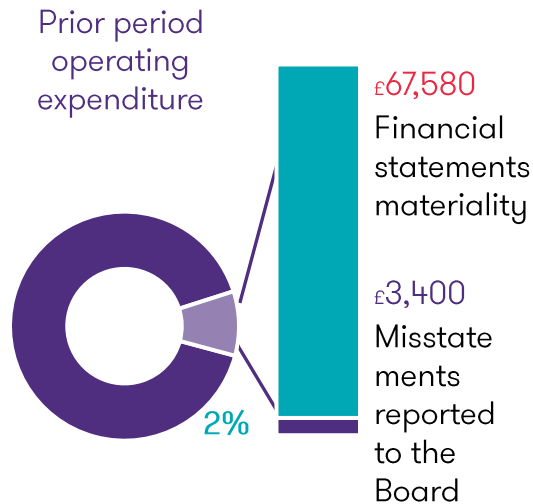

# Audit approach

# Materiality

Financial statement materiality is determined based on a proportion of the total operating expenditure. We have determined **planning materiality** to be £67,580, which equates to approximately 2% of your prior year total operating expenditure in-year.

**Performance materiality** represents the amount set for the financial statements as a whole to reduce the probability that the aggregate of uncorrected and undetected misstatements exceed materiality. We use this to determine our testing approach to the financial statements. We have set this at 75% of planning materiality (£50,685). This is based on our understanding of the Valuation Joint Board including no material or unadjusted errors in the prior year.

Materiality reflects our professional judgement of the magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements.

On this basis we apply a separate **lower materiality level** to the Remuneration Report. This is set at the lowest disclosure bandings in the Remuneration Report (£5,000).

Under ISA 260 (UK) 'Communication with those charged with governance', we are required by auditing standards to report uncorrected omissions or misstatements other than those which are '**clearly trivial**' to those charged with governance. We have determined this threshold to be £3,400 being 5% of financial statement materiality.

**We will update our materiality based on the unaudited 2021/22 financial statements. During the course of our audit engagement, we will continue to assess the appropriateness of our materiality.**

# Significant financial statement audit risks

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement [Subject to completion of audit planning]

Management Override of Controls (as required within Auditing Standards – ISA 240)

Our risk focuses on the areas of the financial statements where there is potential for management to use their judgement to influence the financial statements alongside the potential to override The VJB internal controls, related to individual transactions.

Our work focuses on critical estimates and judgements as set out within the financial statements, including accounting policies. In addition, we specifically consider cut-off (expenditure) and the use of manual journals during the year, and in creating the financial statements where controls may be overridden by management. These are inherently the areas in which management has the potential to use their judgement to influence the financial statements.

Risk of Fraud in Expenditure (as recommended in FRC Practice Note 10 for Public Sector entities)

Operating expenditure is understated or not treated in the correct period (risk of fraud in expenditure). As payroll expenditure is well forecast and agreeable to underlying payroll systems, there is less opportunity for the risk of misstatement in this expenditure stream. We therefore focus on material non-pay expenditure streams. We consider the risk to be particularly prevalent around the year end and therefore focus our testing on cut-off of these expenditure streams and the completeness of expenditure.

Our testing includes a specific focus on year end cut-off arrangements, where it may be advantageous for management to show an enhanced/different financial position in the context of the need to achieve the financial targets set.

# Significant financial statement audit risks (continued)

## IAS 19 Defined Benefit Pension Liabilities (valuation)

The VJB participates in the Highland Council Pension Fund, a local government pension scheme (LGPS). The scheme is a defined benefit pension scheme and in accordance with IAS 19: Pensions, the VJB is required to recognise its share of the scheme assets and liabilities on the statement of financial position. Hymans Robertson UK LLP provide an annual IAS 19 actuarial valuation of the Authority's net liabilities in the pension scheme. There are a number of assumptions contained within the valuation, including: discount rate; future return on scheme assets; mortality rates; and, future salary projections. Given the material value of the scheme liabilities and the level of estimation in the valuation, there is an inherent risk that the defined benefit pension scheme liability could be materially misstated within the financial statements. In particular the risk that inappropriate assumptions are made within the actuarial valuation.

We will consider the work of the actuary (Hymans Robertson UK LLP), including the assumptions applied, using the work performed by PricewaterhouseCoopers (PwC) (commissioned on behalf of Audit Scotland to review actuarial assumptions proposed by LGPS actuaries), as well as local audit assessment. A appointed auditors over the Highland Council Pension Fund we will obtain assurances over the information supplied to the actuary in relation to the VJB, including assets held and confirm joint assurances in respect of employer and employee contributions in the year. We will review and test the accounting entries and disclosures made within VJB's financial statements in relation to IAS 19.

As set out in ISA 240 there is a presumed risk that revenue may be misstated due to improper recognition of revenue. The VJB receives income from grants, predominantly via the Scottish Government, and funding from constituent authorities. Grant Income is agreed to underlying grant funding agreements and constituent authority funding to initial allocations and formally agreed at the year end. Consequently, we consider there to be a lower opportunity to materially misstate this revenue stream. We therefore rebut the presumed risk of improper recognition of revenue.

**We will communicate the final significant financial statement risks within our final audit plan in March 2022. The findings on these areas as well as any other significant matters arising from the audit will be communicated to you in our Annual Report to those Charged with Governance and the Controller of Audit in concluding our audit in September 2022.**

# Other matters

## Auditor Responsibilities

We have a number of audit responsibilities as set out in the Code and planning guidance:

- We audit parts of your Remuneration Report in your Annual Report and check whether these sections of your Annual Report have been properly prepared (opinion)
- We read the sections of your Annual Report which are not subject to audit and check that they are consistent with the financial statements on which we give an opinion (opinion)
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are consistent with the financial statements and that the report is prepared in accordance with the Delivering Good Governance in Local Government: Framework (2016).
- We consider our other duties under the Code and planning guidance (2021/22), as and when required, including:
  - Supporting Audit Scotland in Section 22 reporting.
  - Providing regular updates to Audit Scotland to share awareness of current issues.
  - Participating in the Audit Scotland Local Authority Sector group.
  - Notifying Audit Scotland of any cases of money laundering or fraud
  - Review of Technical guidance prior to issue by Audit Scotland.

## Internal control environment

Throughout our audit planning and fieldwork we will continue to develop our understanding of the overall control environment (design) as related to the financial statements. In particular we will:

- Consider procedures and controls around related parties, journal entries and other key entity level controls.
- Perform walkthrough procedures on key controls around identified risk areas including: Requisition funding; payroll expenditure; material non-pay expenditure streams; journal entries; and, material areas of management estimate and judgement including defined benefit pension scheme liabilities.
- Our focus is design and implementation of controls only. We do place reliance on controls when it comes to our year end financial statement audit work.

## Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

## Going concern assessment

As auditors, we are required to obtain sufficient appropriate audit evidence regarding, and conclude on:

- whether a material uncertainty related to going concern exists; and
- the appropriateness of management's use of the going concern basis of accounting in the preparation of the financial statements.

The Public Audit Forum has been designated by the Financial Reporting Council as a "SORP-making body" for the purposes of maintaining and updating Practice Note 10: Audit of financial statements and regularity of public sector bodies in the United Kingdom (PN 10). It is intended that auditors of public sector bodies read PN 10 in conjunction with (ISAs) (UK).

PN 10 has recently been updated to take account of revisions to ISAs (UK), including ISA (UK) 570 on going concern. The revisions to PN 10 in respect of going concern are important.

In particular, PN 10 allows auditors to apply a 'continued provision of service approach' to auditing going concern, where appropriate. In considering going concern we will refer to Audit Scotland's Going Concern publication (December 2020).

Within our wider scope work we will conclude on the VJB's arrangements to ensure financial sustainability.

## Wider Scope Audit – smaller body arrangements

For smaller bodies the Audit Scotland Code of Practice permits auditors to not apply the full wider scope audit. In our judgement, taking into account the nature of the VJB's operating activity and income and expenditure streams, we feel it is appropriate to continue to treat you as a smaller body under the Code. However, in accordance with Audit Scotland planning guidance, we will update our understanding of your arrangements for ensuring financial sustainability as well as your governance arrangements in place to support disclosures contained within the annual governance statement included within your financial statements.

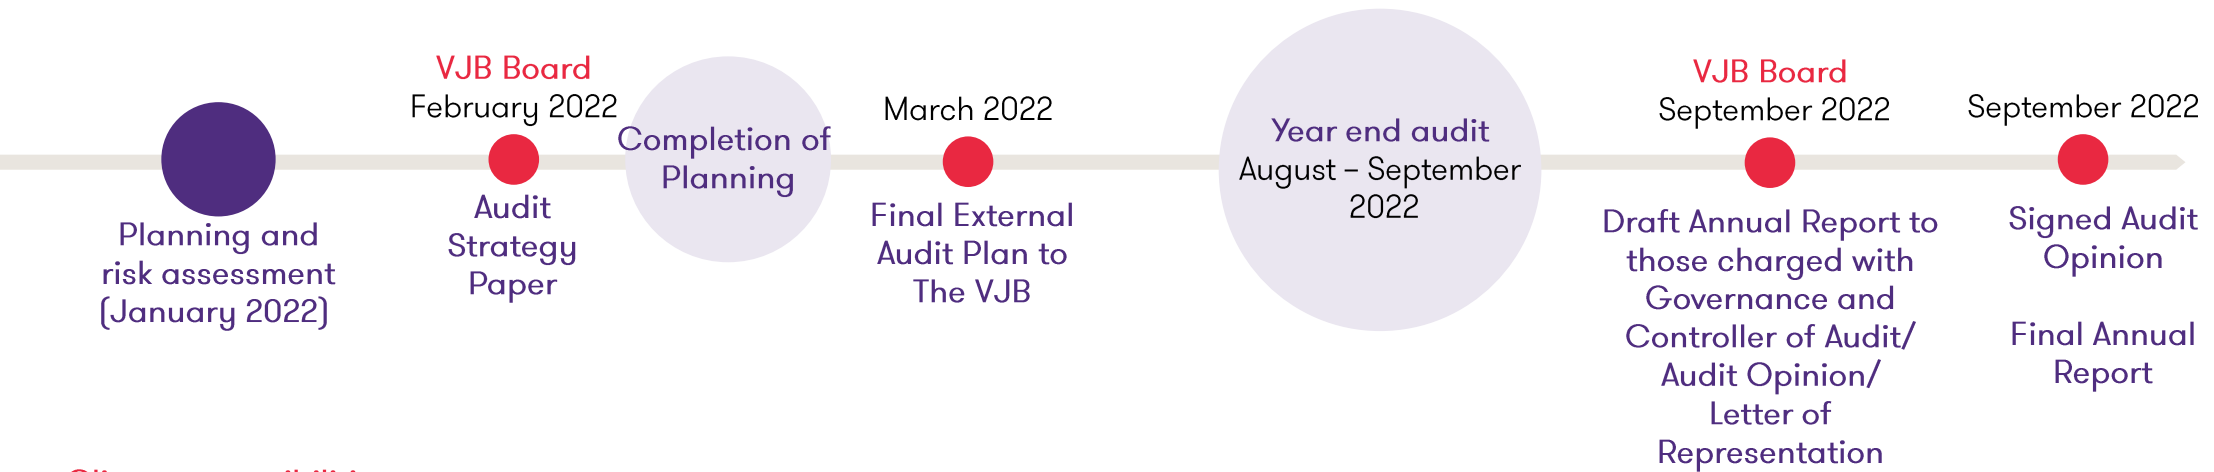

## Accounting estimates

Under ISA (UK) 540 auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

To ensure compliance with this revised auditing standard, we will be requesting further information from management and those charged with governance during our audit. Based on our knowledge of The VJB we have identified the only material accounting estimate for which this is likely to apply as defined benefit pension schemes.

# Audit timeline

## Client responsibilities

Where clients do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other clients. Where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

## Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the deadline you have agreed with us, including all notes, the Annual Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available (or as otherwise agreed) over the planned period of the audit
- respond promptly and adequately to audit queries.

# Quality and adding value through the audit

Our overall approach for the audit is clear and upfront communication, founded on our public sector credentials and a methodology to ensure delivery of a quality audit.

The diagram opposite summarises our key approach to adding value to you throughout our audit.

Our methodology is risk based. We comply with Auditing standards and as a Firm we are regulated by the FRC. We taking findings on audit quality seriously and continue to invest as a Firm through our audit investment plan. The audit investment plan is supported by a specific national Public Sector audit plan.

We comply with Audit Scotland's quality arrangements including submitting an annual quality report over our Audit Scotland portfolio. As part of Audit Scotland's quality arrangements, ICAS review our work on a rotational basis. Audit Scotland's quality report can be found at [www.audit-scotland.co.uk](http://www.audit-scotland.co.uk)

Our wider quality arrangements are set out in our annual transparency reports which are available on our website ([www.granthornton.co.uk](http://www.granthornton.co.uk)).

## Project management

- Use of Inflo to track progress and deliverables throughout the audit
- Clear roles and ownership of responsibilities within our team
- Clarity over expectations and timetable
- Track record delivering public sector audits on behalf of Audit Scotland

## Clear reporting

- Clear audit outputs at planning and within our final Annual Report
- Practical, risk based, recommendations for you to take forward
- Our judgements and conclusions set out transparently and in clear language
- Senior presence at Board meetings to present our findings and support wider dialogue

## Pragmatism and early attention of issues

- Accessible and proactive engagement team
- Working with you to reach the right solution – flexing the workplan, recognising Covid-19
- Audit director takes ultimate decision on technical matters, consulting with our technical experts

## Public sector understanding

- Using our public sector insight to inform our audit and identify improvements you could make
- Regular meetings throughout the year sharing our observations and wider sector knowledge
- Wider scope conclusions to support you in considering key risks and the improvement actions to take

# Audit Fees

Across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing. This includes the revised ISA (UK) 540 (revised): Auditing Accounting Estimates and Related Disclosures.

As a firm, we are absolutely committed to meeting the expectations of the FRC over audit quality and public sector financial reporting. This includes, for Audit Scotland contracts, meeting the expectations of the Audit Scotland Quality Team and the ICAS quality framework.

Audit fees were shared by Audit Scotland with VJB in December 2021. The audit fee is calculated in accordance with guidance issued by Audit Scotland. In accordance with the Audit Scotland guidance, we can increase the fee by up to 20% from the base fee set by Audit Scotland, depending on risk factors identified by us as your external auditors. We cannot reduce the fee from the baseline set out by Audit Scotland. For 2021/22 we have agreed with Management (Senior Officers) to set the audit fee at the baseline fee. We will continue to review this through our planning procedures.

## Relevant professional standards

Audit Scotland set the baseline audit fee. We can increase the fee, from the baseline, for the inclusion of additional risks, new technical matters or specific client matters identified. We are required to consider all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's Ethical Standard (revised 2019) which state that the Engagement Lead must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

## Audit fees for 2020/21

Service	Fees £
External Auditor Remuneration	6,760
Pooled Costs	700
Contribution to Audit Scotland costs	360
Contribution to Performance Audit and Best Value	Nil
<b>2020/21 Fee</b>	<b>7,820</b>

## Additional Fees (Non-Audit Services)

Service	Fees £
At planning stage we confirm there are no non-audit fees	Nil

## Fee assumptions

In setting the fee for 2021/22 we have assumed that the VJB will:

- prepare a good quality set of accounts, supported by comprehensive and well-presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made in preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

---

# Independence

---

## Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons relating to our independence.

We encourage you to contact us to discuss these or any other independence issues with us.

We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention.

We have complied with the Financial Reporting Council's Ethical Standard (Revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard.

Our team complete annual fit and proper declarations including independence confirmations on a client by client basis as well as completing timesheets. The work of our Ethics team is overseen by the Ethics partner and all staff undergo ethics training in year.

# Appendices

# Responsibilities

The Code sets out auditor responsibilities and responsibilities of the audited body. Key responsibilities are summarised below. Please refer to the Code for further detail.

## The VJB

Responsibilities include:

- Preparing financial statements that give a true and fair view
- Maintaining accounting records
- Establishing and maintaining systems of internal control
- Effective internal controls including controls to achieve objectives and secure value for money
- Establish arrangements for proper conduct of affairs including legality of transactions
- Arrangements for prevention and detection of fraud, error, irregularity, bribery and corruption
- Appropriate corporate governance arrangements and arrangements to monitor the effectiveness of governance

## External Audit

Responsibilities include:

- Comply with professional engagement and ethical standards
- Provide an ISA compliant audit and opinion on the financial statements including regularity of transactions
- Demonstrate compliance with the wider scope public audit as detailed in the Code and applicable guidance
- Liaise with and notify Audit Scotland when circumstances indicate a statutory report may be required. This includes sharing awareness of current and/or sector issues
- Notify Audit Scotland of any known or suspected frauds greater than £5,000
- Contribute to relevant performance studies (as set out in the planning guidance for the year)

# Fraud responsibilities

The term fraud refers to intentional acts of one or more individuals amongst management, those charged with governance, employees or third parties involving the use of deception that result in a material misstatement of the financial statements. In assessing risks, the audit team is alert to the possibility of fraud at Highland and Western Isles Valuation Joint Board.

As part of our audit work we are responsible for:

- identifying and assessing the risks of material misstatement of the financial statements due to fraud in particular in relations to management override of controls.
- leading a discussion with those charged of governance (the Valuation Joint Board) on their view of fraud. Typically we do this when presenting our audit plan and in the form of management and those charged with governance questionnaires.
- designing and implementing appropriate audit testing to gain assurance over our assessed risks of fraud
- responding appropriately to any fraud or suspected fraud identified during the audit.

As auditors we obtain reasonable assurance the financial statements as a whole are free from material misstatement, whether due to fraud or error.

We will obtain annual representation from management regarding managements assessment of fraud risk, including internal controls, and any known or suspected fraud or misstatement. We also make inquires of internal audit around internal control, fraud risk and any known or suspected frauds in year.

The primary responsibility for the prevention and detection of fraud rests with management and those charged with governance including establishing and maintaining internal controls over the reliability of financial reporting effectiveness and efficiency of operations and compliance with applicable laws and regulations.

It is The VJB's responsibility to establish arrangements to prevent and detect fraud and other irregularity. This includes:

- developing, promoting and monitoring compliance with standing orders and financial instructions
- developing and implementing strategies to prevent and detect fraud and other irregularity
- receiving and investigating alleged breaches of proper standards of financial conduct or fraud and irregularity.

Throughout the audit we work with the VJB to review specific areas of fraud risk, including the operation of key financial controls. We also examine the policies in place, strategies, standing orders and financial instructions to ensure that they provide a strong framework of internal control.

All suspected frauds and/or irregularities over £5,000 are reported to Audit Scotland by us as your auditors on a quarterly basis.

### Anti-Money Laundering Arrangements

As required under the Money Laundering, Terrorist Financing and Transfer of Funds Regulations 2017 there is an obligation on the Auditor General (as set out in the planning guidance) to inform the National Crime Agency if he knows or suspects that any person has engaged in money laundering or terrorist financing. Should we be informed of any instances of money laundering at The VJB we will report to the Auditor General as required by Audit Scotland.

# Communication

ISA (UK) 260 as well as other ISAs set out prescribed matters which we are required to report to those charged with governance (we assume this to be the Valuation Joint board). Our reporting responsibilities are set out below. We communicate all matters affecting the audit on a timely basis, to management (Senior Officers) and/or the Valuation Joint Board.

	Audit Plan	Annual Report (considered our ISA 260 Report)
<b>Our communication plan</b>		
Respective responsibilities of auditor and management (senior officers)/those charged with governance	•	
Overview of the planned scope and timing of the audit, including planning assessment of audit risks and wider scope risks	•	
Confirmation of independence and objectivity	•	•
A statement that we have complied with relevant ethical requirements regarding independence. Relationships and other matters which might be thought to bear on independence. Details of non-audit work performed by Grant Thornton UK LLP and network firms, together with fees charged. Details of safeguards applied to threats to independence	•	•
Significant matters in relation to going concern	•	•
Views about the qualitative aspects of the Valuation Joint Board' accounting and financial reporting practices, including accounting policies, accounting estimates and financial statement disclosures		•
Significant findings from the audit		•
Significant matters and issues arising during the audit and written representations that have been sought		•
Significant difficulties encountered during the audit		•
Significant deficiencies in internal control identified during the audit		•
Significant matters arising in connection with related parties		•
Identification or suspicion of fraud involving management and/or which results in material misstatement of the financial statements		•
Non-compliance with laws and regulations		•
Unadjusted misstatements and material disclosure omissions		•
Expected modifications to the auditor's report or emphasis of matter		•

# Accounting estimates and related disclosures

The Financial Reporting Council issued an updated ISA [UK] 540 (revised): *Auditing Accounting Estimates and Related Disclosures* which includes significant enhancements in respect of the audit risk assessment process for accounting estimates. The first year this impacted on was the 2020/21 financial year.

## Introduction

Under ISA [UK] 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do **the Valuation Joint Board** members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

## Additional information that will be required

To ensure our compliance with this revised auditing standard, we will be requesting again this year further information from management and those charged with governance during our audit for the year ended 31 March 2022.

Based on our knowledge of the VJB, in particular prior year, we have identified only one material accounting estimates being defined benefit pension scheme liabilities.

## The VJB's Information systems

In respect of the VJB's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change.

Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

# Auditing developments

There are changes to the following ISA (UK):

- ISA (UK) 315 (Revised July 2020) 'Identifying and Assessing the Risks of Material Misstatement' - This will impact audits of financial statement for periods commencing on or after 15 December 2021.
- ISA (UK) 240 (Revised May 2021) 'The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements' This will impact audits of financial statement for periods commencing on or after 15 December 2021.

A summary of the impact of the key changes on various aspects of the audit is included below:

Area of change	Impact of changes
Risk assessment	<ul style="list-style-type: none"> <li>• The nature, timing and extent of audit procedures performed in support of the audit opinion may change due to clarification of:               <ul style="list-style-type: none"> <li>• the risk assessment process, which provides the basis for the assessment of the risks of material misstatement and the design of audit procedures</li> <li>• the identification and extent of work effort needed for indirect and direct controls in the system of internal control</li> <li>• the controls for which design and implementation needs to be assess and how that impacts sampling</li> <li>• the considerations for using automated tools and techniques.</li> </ul> </li> </ul>
Direction, supervision and review of the engagement	<ul style="list-style-type: none"> <li>• Greater responsibilities, audit procedures and actions are assigned directly to the engagement lead, resulting in increased involvement in the performance and review of audit procedures.</li> </ul>
Professional scepticism	<ul style="list-style-type: none"> <li>• The design, nature, timing and extent of audit procedures performed in support of the audit opinion may change due to:               <ul style="list-style-type: none"> <li>• increased emphasis on the exercise of professional judgement and professional scepticism</li> <li>• an equal focus on both corroborative and contradictory information obtained and used in generating audit evidence</li> <li>• increased guidance on management and auditor bias</li> <li>• additional focus on the authenticity of information used as audit evidence</li> <li>• a focus on response to inquiries that appear implausible</li> </ul> </li> </ul>

Area of change	Impact of changes
Fraud	<ul style="list-style-type: none"> <li>• The design, nature timing and extent of audit procedures performed in support of the audit opinion may change due to:               <ul style="list-style-type: none"> <li>• clarification of the requirements relating to understanding fraud risk factors</li> <li>• additional communications with management or those charged with governance</li> </ul> </li> </ul>
Documentation	<ul style="list-style-type: none"> <li>• The amendments to these auditing standards will also result in additional documentation requirements to demonstrate how these requirements have been addressed.</li> </ul>
