

Agenda Item	6
Report No	LA/19/22

HIGHLAND COUNCIL

Committee: Lochaber Area Committee

Date: 24th October 2022

Report Title: Play Park Funding Update

Report By: Executive Chief Officer Communities and Place

1. Purpose/Executive Summary

- 1.1 Members agreed at Communities and Place Committee in November 2021 to allocate the funds received from the Scottish Government's play park renewal fund, £60m over the life time of the parliament, be apportioned to Area Committees based on a blend of play park conditions and the criteria used by Government. In 2021/22 this was based on 95% 0 –14-year-old population and 5% on rurality and in 2022/23 and future years based on 93% age and 7% rurality.
- 1.2 This report proposes Members agree the distribution of the Lochaber Area funding (£40,225) for 2022/23, which can be enhanced by local placed based funds, be split equally for the two Lochaber Wards.

2. Recommendations

2.1 Members are asked to;

Note;

- the funding available and the funding already committed to invest in play parks in the Lochaber Wards;

Agree

- to split the allocation for the Lochaber Area for 2022/23 (£40,225) equally between the two Lochaber Wards;
- in Ward 21, allocate the 2021/22 remaining balance of £13,844.18 to the Amenities budget for use in maintaining play parks in Ward 21

3. Implications

3.1 Resource

In August 2022, £245,000 of capital grant has been allocated to the Council as part of the Scottish Government's commitment to play area renewal. The principles for investing this funding and reporting on its use are now confirmed as described in the report. This is the second tranche of funding amounting to £5m nationally for 2022/23. The further £50m will be distributed to Scottish Councils over the lifetime of the Parliament. Highland Council's allocation is set out at section 5.3.

Members agreed at Communities and Place Committee in November 2021 the allocation of the funds received from the Scottish Governments play park renewal fund be apportioned to Area Committees based on a blend of play park conditions and the criteria used by Government which was 95% based on the 0-14-year-old population and 5% on rurality and in 2022/23 and future years is based on 93% age and 7% rurality.

3.2 Legal

Play areas are not a statutory service; however, where they are provided, we must comply with the Health and Safety at Work Act 1974 and the Occupiers Liability (Scotland) Act 1960 for employees and members of the public attending play areas. We must also comply with our duties under the Equality Act 2010 and the Fairer Scotland Duty.

Article 31 of the UN Convention on the Rights of the Child states that children have the right to relax and play, and participate in a wide range of cultural, artistic and cultural activities. The Council's earlier approach to support these rights was set out in the [Play Strategy 2016-20](#). This recognises the value of informal spaces for play as well.

3.3 Community (Equality, Poverty and Rural)

The work underway with Members takes a place-based approach to reviewing all the play areas within a Ward. It enables views to be gathered on options for play areas including repair and replacement of equipment or whether an alternative use should be considered. Members locally are focused on creating positive experiences for children and young people using play parks across Highland and that provision is made to ensure access for all. There is no charge to access at any Highland Council play park. This is in line with the Scottish Government's requirement for this award, that there remains an emphasis on play parks being as inclusive and valuable to children as possible, in line with the United Nation Convention Rights of the Child (UNCRC) duty. There is a need to widen engagement on play area renewal as a condition of the Government's funding and this aligned to the Council's vision of being connected and the development of its place-based approach.

3.4 Climate Change / Carbon Clever

In line with the Council's net zero targets, consideration will be given to the environmental impact of new pieces of play equipment, with natural play equipment being considered where appropriate.

3.5 Risk

Inspecting and maintaining and/or replacing play park equipment will prevent injury to children and claims being made against the Council.

The approach to engaging locally on play area options with Members and other community bodies and children will enable honest conversations about prioritising resources. This not only reduces the risk of unreasonable public expectation given the importance of an affordable play estate, but it also enables joint problem solving and the identification of external funding and volunteering support.

There is a risk that the full capital allocation of £245k cannot be committed within 2022/23, especially as other Councils may be contacting similar suppliers. This has been mitigated by permission from the ECO Resources and Finance to carry uncommitted expenditure forward into future years.

3.6 Gaelic

There are Gaelic implications for any new signage required ensuring it has bi-lingual content in keeping with the Council's policy.

4. Background

4.1 Playparks have positive social and mental health benefits for children and young people. This has been highlighted during the COVID-19 pandemic and associated lockdowns.

4.2 The Council has 338 play parks and over 2500 pieces of play equipment. Lochaber has 34 play areas and 202 pieces of play equipment.

4.3 The provision of play parks is not a statutory duty; but the inspection and maintenance of equipment once installed, is a mandatory requirement. For this reason, play parks are subjected to daily, weekly, fortnightly or monthly inspection based on usage and risk, and an annual inspection carried out by a qualified playground inspector.

4.4 A place-based review of play parks is well underway and being taken forward in discussions with Members locally. This is aligned to the Council agreement in January 2021 that:

“budget and decision-making are devolved to Area Committees to enable a place-based approach that uses local knowledge, community effort and resources alongside Member views and staff advice to solve problems together and to identify possibilities for a more sustainable approach to the play estate.”

4.5 To comply with the conditions of capital grant from the Scottish Government's play park renewal programme, wider engagement is required along with reporting back on how the investment is being deployed. Wider engagement will align well to the principle of inclusion above and support Members in their local decision-making. In some Wards interested groups have already been involved.

5. Budget and Investment

- 5.1 The annual revenue budget for play parks for the Lochaber Area 2022/23 is £13,000. This includes labour, plant and fleet, materials, and some contractor costs.
- 5.2 Following consideration at the Community and Place Committee on 25 November 2020, the Council agreed in January 2021 that budgets and decision-making for play parks would be devolved to Area Committees as set out at 4.4 This has involved more local discussions with Members within their Ward, given the Ward funds available and to enable a more local consideration as part of the place-based approach.

During 2021/22 the Wards in Lochaber agreed to allocate £6,380 from their Ward Covid Funds.

- 5.3 The allocation from the Scottish Government play parks renewal programme for the Lochaber Area is £40,225, it is proposed to split this equally between the two Lochaber Wards to allow an allocation of £20,113 per Ward in line with the allocation split agreed in November 2021.

The next three years allocations for the Lochaber Area are shown in the table below;

Area Committee	No. of play parks	2021/22	2022/23	2023/24	2024/25	2025/26	Total
Lochaber	34	37,919	£40,225	£80,088	£124,200	£212,242	£494,674

- 5.4 At the Lochaber Area Committee in November 2021, the following was agreed:

- to split the allocation for the Lochaber Area 2021/22 (£37,919) equally between the two Lochaber Wards;
- in Ward 21, the remaining £15,020 Place-based Investment Fund is added to the Ward share of the Scottish Government funding (£18,959);
- the remainder of the Ward 21 Covid fund; £1,679, be re-purposed for play provision and the total amount (£35,658) made available for communities to bid in to for the repair or replacement of play equipment;
- open a funding round immediately with a closing date of mid-March 2022

As a result of the open round for communities to bid into, the following applications were approved:

- West Ardnamurchan Community Development Company - £6,753.24 – Kilchoan Play Park
- Fort William Shinty Club - £6,400 – Camanachd Play Area
- Acharacle Community Company - £2,660.58 – Acharacle Play Park
- Sunart Community Company - £6,000 – Strontian Play Park

These grants totalled £21,813.82, leaving a balance of £13,844.18. Members are asked to allocate this remaining balance of £13,844.18 to the Amenities budget for use in maintaining play parks in Ward 21.

Designation: Executive Chief Officer Communities and Place
