## **HIGHLAND COUNCIL**

**Committee:** Highland Council

**Date:** 11 May 2023

**Report Title:** Members Survey Results and Learning and Development Programme

**Report By:** Interim Chief Executive

### **1. Purpose/Executive Summary**

**1.1** This report presents the findings of the recent survey undertaken by elected Members. Overall, the feedback was positive with a great deal of good work to build on.

**1.2** The report details some of the key results and analysis from the survey and a number of specific actions arising from these findings. In addition, the survey data will be used to inform the development of a refreshed Members' Learning and Development Programme which will be brought forward for Member approval in June.

### **2. Recommendations**

**2.1** Members are asked to note:

- i. the findings of the Members' Survey;

and agree:

- ii. to establish a short life Members' Working Group to scope future requirements, with a view to bringing forward a Members' Learning and Development programme for Council approval in June 2023;
- iii. to implement a range of evaluation metrics to assess the effectiveness of learning outcomes; and
- iv. to re-establish the Governance Review Steering Group with refreshed membership, to take forward a review of governance arrangements, supported by the ECO for Performance and Governance.

### **3. Implications**

**3.1** Resource: Staff resources will be required to support the ongoing Learning and Development Programme for Members. There will also be a time commitment asked of Members assigned to the Working Group, this will include working with officers to develop and implement a Learning and Development Programme focusing on

Members' needs and effective learning outcomes. To be effective, the refreshed Learning and Development Programme will also require a time commitment from Members. Given the multiple calls already on Members' time it is essential for the Programme to be relevant, effective and proportionate and the Members Working Group input will be critical in tailoring the programme appropriately.

- 3.2 Legal: There are no direct legal implications arising from the report. There are specific requirements for Members appointed to the Licensing Board and for those who are involved in the determination of planning applications to undertake mandatory training to fulfil regulatory functions and obligations.
- 3.3 Risk: A failure to follow appropriate governance and scrutiny in making decisions at committee and council presents legal, financial, and reputational risks for the Council.
- 3.4 Gaelic: Gaelic development and the acquisition of Gaelic language skills will be included in the suite of learning opportunities being offered to members as part of the refreshed L&D Programme.
- 3.5 Community (Equality, Poverty and Rural); Climate Change / Carbon Clever: There are no direct implications arising from the proposals in this report.

#### 4. **Background**

- 4.1 As part of our ongoing commitment to continuous improvement and to support future learning and development for Members, a survey was issued to Members on 30 March 2023 (**Appendix 1**). The survey closed on 19 April 2023 with a response rate of 36%. The full report can be found at **Appendix 2**.
- 4.2 The survey covered six key areas: health, safety and wellbeing, working arrangements; governance; Members training and development; ICT and digital; and performance management. There were no mandatory fields, so Members were able to skip any questions they did not wish to answer. All responses were anonymous.
- 4.3 Following the May 2022 local elections, all Members were given the opportunity to undertake and participate in a comprehensive induction programme, this extended over a six-week period. **Appendix 3** provides an overview of the learning and development offered during this time, and further covers workshops, engagement and training sessions held throughout 2022-2023.
- 4.4 **Appendix 4** presents the uptake of those sessions by Members. Overall, attendance during the induction period was good; however, attendance at recent workshops and training sessions has been relatively low in comparison. Part of the next phase of work will be to understand what more needs to be done to assist in supporting good attendance and delivering successful outcomes. It is hoped that the establishment of a short life Members' working group will provide guidance to officers on how best to progress this.

#### 5. **Member Survey Results 2023**

- 5.1 The survey results indicate that overall Members were satisfied with the information received prior to the local elections. There is scope to review the timeliness of information to candidates with clarity around expectations in terms of working hours and commitments. This will be taken forward in collaboration with the Council's Elections Team.

- 5.2 It is essential that the Council is pro-active in supporting Members' personal safety and security and the results indicate that Members do feel supported when seeking advice from officers in this regard. Whilst the survey results suggest a relatively low level of concern, this is an area that we are keen to develop to ensure that all Members are equipped with the tools and training to carry out their duties safely. To address this, the Highland Council will be hosting a personal safety and lone working talk for all Members on 13 June 2023. This will be delivered by the Suzi Lumplugh Trust. There will also be a review of protocols around elected Members safety and personal security.
- 5.3 The Council's Employee Assistance Programme (EAP) offers confidential counselling support and is available to all staff and Members, including their family members, free of charge to those accessing the service. The results from the survey show that 50% of respondents are unaware of this programme and so information on the Employee Assistance Programme and how to access the service if required will be circulated to all Members with annual reminders issued.
- 5.4 Members were positive about the level of support from the Council's in-house ICT service. Members have indicated that they would find it useful to have an updated contact card for key points of contact as well as an up-to-date organisational chart and structures. Members have also indicated they would benefit further from additional training on Microsoft Teams and Sharepoint.
- 5.5 96% of respondents reported that the induction training received following the Local Elections was sufficient and assisted in fulfilling their role as a Councillor. Members are keen to attend refresher training covering a range of areas, including social media, communications and cyber security; governance; and information and caseload Management. Members will be invited to attend a refresher session on Governance planned for the 30 May 2023, and further consideration is being given to delivering training on the areas identified in the survey.

## **6. Next Steps**

- 6.1 Members approved a Learning and Development Programme in September 2019 ([Members L&D Sept 2019](#)). This fell into abeyance during Covid and then was overtaken by the requirement to design and then deliver induction and refresher training following the Local Government Elections in 2022. It is proposed that a refreshed Programme for the remaining term of the Council be developed that reviews the programme content and delivery methodology previously agreed and also reflects the feedback from the survey. It is proposed that a short-life Members' Working Group is established to inform this work, with a report and draft refreshed programme to come back to Council in June. If this is agreed, an email will be issued to all Members seeking expressions of interest for membership of the Group with a date for the first meeting arranged as soon as possible thereafter.
- 6.2 The survey also showed almost three quarters of respondents would support reviewing the current committee arrangements and a third of respondents were interested in reviewing Council Standing Orders. The Council initiated a Governance Review in 2019 which led to series of changes being made to governance arrangements in the latter part of that year. The Council agreed at its meeting in December 2019 that there would be a need to "keep all of the new arrangements under review in the first part of 2020 in order to assess the resource implications of the changes, identify and rectify any unforeseen issues that may arise and pick up on any matters that may have been

overlooked.” Due to the pandemic this review did not happen. However, it would be opportune to pick this up now, in the light of the original intention to review; the response to the survey; and the opportunity to reflect the experience of new members. It is consequently proposed that the Governance Review Steering Group is re-established, with refreshed membership, to take this forward supported by the ECO for Performance and Governance.

- 6.3 Alongside the refreshed L&D Programme, a range of evaluation metrics will be introduced to provide information and analysis of the effectiveness of the programme content and to inform development and improvement as the programme progresses. The implementation of evaluation metrics such as learning outcomes, behavioural change and performance improvements will ensure that the most benefit is being derived from members’ investment in their personal and professional development.

# The Highland Council - Member Survey 2023

This short survey should take no longer than 15 minutes to complete. All responses are anonymous so that you feel confident about answering questions in an open way.

The aim of this survey is to collect valuable feedback on your experience of working in the Council whether as a newly elected or returning Member. Whilst this survey is not compulsory, we encourage all Members to take part. All questions are individually optional so you can choose whether to answer some or all of them.

It is intended that the survey will enable the Highland Council to make improvements in the working arrangements and support provided for Members going forward.

**The closing date is Tuesday 11 April 2023.**

If you have any questions, please contact [Shelley.Rennie@highland.gov.uk](mailto:Shelley.Rennie@highland.gov.uk).

Thank you for completing the survey.
