4. The Ross & Cromarty Educational Trust Scheme

4.1 The capital sum of £754,000 is invested in shares held by The Highland Council. The income for year ending April 2023 was £9963. Grants of £9652 were paid out. The income is broadly in line with expectations, given the current economic climate.

1. Prize funds to schools
2. Bursaries to individuals (with continuing students having priority for the duration of their course) Other grants to support sports, educational travel, visual arts, music, drama and research.

4.4

In the last financial year, as in the previous few years, there was insufficient income to make awards in category 3, and there were no applications to this category.

4.5

Appendix 1 outlines the prize and bursaries amounts which may be expended, subject to sufficient investment income. It is noted that the income available last year was 58% of the potential maximum awards.

4.6

In the light of low income from a significant capital investment, members are asked to give delegated authority to the education service to explore financial options for improving income.
