Introduction by the Area Commander

Chief Inspector Judy Hill

I present to you the Inverness Area Committee Scrutiny Report covering the reporting period 1 April 2022 until the 31 March 2023.

These statistical figures play an important part in informing how we are Policing in our communities as they assist in identifying crime trends and ensuring that officers are being deployed most effectively. As always, I would advise some caution when comparing figures on previous years, in particular the 5 and 3 Year Averages as these include periods where restrictions were in place as a result of the COVID-19 pandemic. I am always happy to discuss the data and provide some context around the statistics provided within the report.

We are all aware of the impact that the cost of living challenges are having on our communities, including those who have not felt such hardship before. We continue to work with our Partners to support those who are vulnerable and in need of assistance.

One Partnership that I would like to highlight is the Custody Link Project which has been operating in Inverness for the last 3 years. This project was established in 2020 as a referral pathway to connect individuals with existing support and services in order to prevent them from returning to Police Custody. This service has interacted with hundreds of people over the last 3 years and supported improved outcomes for individuals. An evaluation of the project is available.

We have maintained a proactive presence on our roads network, enforcing road traffic legislation, working with Partners to improve road safety and investigating road traffic collisions. You will note from the report a continuing increase in drink and drug driving. This is always a disappointing statistic, we will continue to target those who put themselves and others at risk by driving after consuming alcohol or taking drugs.

You will also note in the report that we are experiencing increases across Anti-Social Behaviour, Violence, Acquisitive Crime and Protecting Vulnerable People. This increase is reflective of the national position and whilst this does indicate good levels of confidence in reporting, particularly around areas of Sexual Crime, I recognise that we must continue to work collectively with Partners to provide early interventions and prevent harm. Of necessity, at a local and national level, Police Scotland are engaging with Partners about how often we are meeting the demands of other agencies. This is right for Policing and right for those in our communities who deserve the best help from the most appropriate agency.

Of significant concern is the increasing number of assaults against officers. It is not and should not be "part of the job". Violence against our people not only affects the individuals, but the wider service as well as the communities we serve. We will continue to support work in relation to reducing these types of incidents.

I am pleased to report that within the last reporting period we have met with the Inverness Area Community Council Forum where we had some positive discussions around how we can ensure that we are hearing from our communities, albeit in a different way than we have done before. I hope that we can continue to build on that.

Finally, the funding allocation for Policing this year does not allow us to maintain levels of service which we have delivered in previous years. We are having to make some difficult decisions to ensure that we are able to continue to deliver our core function of responding to priority, high threat incidents such as high risk missing people and serious violent crime. Whilst I understand that this creates uncertainty, knowing the area, the people and the Partnerships as I do I am confident that we will continue to be able to deliver a service which has community and safety at its heart.

Operation CEDAR involves proactive multi-agency enforcement operations on the roads, which sits alongside education activity aimed at improving driver behaviour of all ages. Partner agencies continue to work together to improve understanding of the factors which could contribute to improving road safety for everyone on the roads and together respond to these issues.

Anti-Social Behaviour, Disorder and Violence (including Alcohol and Drug misuse)

Intention – With Partners, better understand the causes to prevent and reduce instances of Anti-Social Behaviour, Disorder and Violence to enhance community safety across the Highland Area.

Harm Prevention Officer – A Harm Prevention Officer (HPO) role was introduced within the N Division area in November 2020. This role is filled by a Police Constable who undertakes daily liaison between internal/external stakeholders with a view to reducing the risk posed to certain members of the public through alcohol and controlled substance misuse.

The HPO works with other partners to target Cuckooing which is a crime whereby crime groups take over the home of a vulnerable person in order to use it as a base for County Lines offences. The HPO works within the nationally recognised Serious and Organised Crime Strategy (Divert, Deter, Disrupt, Detect) targeting the Divert and Deter strands.

The HPO is fully funded by NHS Highland via the Highland Alcohol and Drug Partnership (HADP).

Prevention and Interventions Officers/Partnerships – Prevention and Interventions Officers continue to work with internal and external Partners to combat Anti-Social Behaviour. This has involved inputs being delivered to High Schools within the Highland Council area and to working alongside colleagues from Inverness Area Command in terms of Operation Respect.

Operation Respect is a Partnership led initiative run within Inverness Area Command aimed at reducing instances of Anti-Social Behaviour and Violence. Some of the Partners involved include Police Scotland, Highland Council, Scottish Ambulance Service, Highland Third Sector Interface (Café 1668) and the Street Pastors.

Operation Respect was run over the winter period (2022) with a further operation being completed over the summer period (2023).

No Knives, Better Lives - No Knives, Better Lives (NKBL) is a national capacity-building programme that supports primary prevention work related to knife carrying in Scotland. In 2009, the NKBL National

OFFICIAL

Delivery Team at YouthLink Scotland and the Scottish Government began supporting partners in 11 selected Local Authority areas to implement NKBL. The approach to prevention is informed by the principles and values of youth work and a public health approach to violence prevention. The focus is not just on what it is we do not want young people to do and how to stop them doing it, but also what we want young people to be able to do, how we support them to understand and navigate risk and to make positive life choices.

Police Scotland's Prevention and Intervention Officers supported this initiative in the Highland area. This is further complemented by the Joint Education and Police Knives in School Protocol which has been progressed.

Acquisitive Crime

Intention – With Partners and Communities, prevent instances of acquisitive crime across the Highland area.

Objective – With Partners, share information, support education, prevention, diversionary and enforcement activity linked to acquisitive crime; develop work with targets – recidivist offenders to reduce reoffending linked to acquisitive crime e.g. Persistent Offenders programme; enhance the use of all media platforms to raise awareness of local and national preventative initiatives.

	5 Year Average	3 Year Average	YTD 2021/2022	YTD 2022/2023	YTD Variation	Detection Rate

Motor Vehicle Crime	99.0	82.0	63	77	14	40.3%

Fraud – The increase in Fraud related crimes last year and continuing to this year has not only been experienced by members of the public residing within the Inverness area, but across the wider N Division area, Scotland and the United Kingdom.

Fraud –

Banking Protocol

Following a number of incidents across the N Division area in respect of Frauds and Banking Protocol, work has been completed with various Banks within N Division setting up learning sessions between staff members to talk through Banking Protocol. This has allowed for a better understanding of the Police response, management of vulnerabilities and referrals/support available to victims. This has and will continue to allow Bank staff to be aware as to the point in they feel that they can/should intervene.

Parcel Scam Fraud

General awareness messaging around parcel/delivery company scams was previously circulated electronically to all housing providers across the N Division area and to the University of the Highlands and Islands for sharing with their staff, clients and students.

Prevention and Interventions Officers

Where an individual becomes the victim of a Fraud related offence, a Prevention and Interventions Officer is tasked with making contact with that person to provide security advice and information with a view to preventing that individual from becoming a repeat victim.

Prevention and Interventions Officers have delivered a number of inputs in relation to Online Safety and Security to community groups, including some groups and individuals deemed vulnerable.

OFFICIAL

A Student Online Safety Guide has been circulated to the University of the Highlands and Islands for sharing with their staff, clients and students which has reached 33000 individuals. The Guide has also been circulated to all High Schools within the Highland Council area.

Rural Watch - The Highland area is renowned for great natural beauty and the rural communities are safe places in which to live, work and visit. However, the nature of the environment and way of life means there are some crime prevention tips particularly relevant to rural life. Watch Schemes work well as a crime prevention and detection tool but are also extremely valuable in terms of enabling Highland communities to share information, allowing agencies to send out relevant crime alerts, and empower local communities to be more resilient.

Missing Persons –

Police Scotland takes every report of a missing person seriously and investigates appropriately with access to local, regional and national specialist resources. Missing persons investigations are a core part of local Policing and it is local officers who undertake all investigations, supported by specialist colleagues where necessary. Further, each Division including, N Division has a dedicated Missing Person Co-ordinator who advises on operational and preventative approaches.

Each Area Command has appointed a local Police liaison officer who maintains contact and liaison with the residential units in their respective area. This role has developed and regular contact has built a good relationship with residential unit(s). Where required, this officer also works in conjunction with the Missing Person Co-ordinator who similarly enjoys a good working relationship with residential units.

Highland CHAMPS - The Highland CHAMPS (Children have Amazing Minds, Potential and Stories) are a group based in Clachnaharry, Inverness. Highland CHAMPS welcome any young person from the Highland area who identifies as care-experienced whether they are a care-leaver, looked after at home, fostered, adopted, in residential care or other. Highland CHAMPS provide a safe space for activities, opportunities, socialising and fun. Further information regarding Highland CHAMPS can be found at:- <https://www.highland.gov.uk/highlandchamps>

Serious and Organised Crime

Intention – With Partners, reduce the threat, risk and harm caused by Serious Organised Crime.

Objective – With Partners work to safeguard the Highland area by taking all opportunities to prevent crime and make the Highland area a hostile environment for Serious & Organised Crime Groups; to improve outcomes for individuals and communities and reduce offending through prevention, early intervention and diversion; in support of our Partners in the Local Authority and NHS via the Highland Alcohol and Drug Partnership Strategy we will direct those who are substance dependant towards recovery through prevention, treatment and support services; with Partners work to reduce the instances of substance misuse in our communities.

	5 Year Average	3 Year Average	YTD 2021/2022	YTD 2022/2023	YTD Variation	Detection Rate
Drug (Supply) Offences	92.0	95.0	75	88	13	85.2%

County Lines - When Organised Crime Groups from major cities such as Birmingham, Derby, Liverpool and London are expanding their drug networks to other areas, bringing with it serious criminal behaviour such as violence, exploitation and abuse. The term County Lines refers to the use of a single telephone number to order drugs, operated from outside the local area. They often set up a base in a rural town for a short time, taking over the home of a vulnerable person by 'cuckooing' and use adults and children to act as drug runners. Preventions and Interventions delivered advisory presentations to Partner agencies including Highland Council (Housing/Social Work) and NHS Highland.

Police Scotland has relaunched an awareness-raising initiative aimed at preventing young people from falling into a life of crime. Working in partnership with the Scottish Government, Police have devised an educational pack for young people that shows the devastating effects of Serious Organised Crime.

N Division has an embedded team of dedicated officers with the sole purpose of targeting County Line offenders, working in partnership with partner agencies and protecting vulnerable persons.

Counter Terrorism

Intention – Support the delivery of the CONTEST strategy to reduce the threat posed by terrorism and domestic extremism.

Objective – Strengthen PREVENT work with Partners and institutions; with Partners, support individuals who are vulnerable to terrorism and violent extremism; strengthen PREVENT work in relation to the internet and Social Media; Effective Multi-agency planning in respect of Counter Terrorism is taking place; Develop our ability to respond effectively to any terrorist attack (with a specific focus on emerging high-risk threats, and specialist capabilities).

WRAP (Workshop to Raise Awareness of Prevent) - The workshop covers issues such as crime, normal social processes that are used to influence and manipulate, case studies that cut across the spectrum of extremism, terrorist ideologies and factors which may contribute to an individual's susceptibility to a terrorist ideology.

In particular, it seeks to support participants to recognise that using their existing expertise and professional judgement, they may be able to recognise potentially vulnerable individuals who may be susceptible to being persuaded by an extremist or terrorist ideology. Workshops delivered to partners across the Highland area.

ACT Early is a program delivered to schools across the Highland area. The ACT Early session is a vehicle for debate around the sensitive issue of violent extremism within communities. As such it is an enabler for community participants to air grievances, debate matters of interest to them and work through a group problem solving experience. The following links can provide more information regarding the program:

Police Constable Lisa Campbell, N Division's Local Counter Terrorism Officer stated:
"As the Counter Terrorism Liaison Officer (CTLO) for N Division, I ensure areas have a Local Contest Liaison Officer who is kept up to date on latest developments in Contest.

I liaise with CT Intelligence, CT Security Advisors, the Prevent Delivery Unit as well as local Area Commanders to address any CT related matters in the area and provide support to the Area Command if required.

I can also provide presentations on Act now, Radicalisation awareness, threat overview and current trends. These can be delivered to a variety of sectors including education and local members.

Exercise Safe Steeple 2 was held in Inverness In September 2022 and is also to be held in Shetland in August 2023 and the Western Isles in September 2023. Safe Steeple 2 is a table top exercise focussing on the recovery from an MTA, 2 hours, 2 days, 2 weeks post incident. It focusses on the multi-agency response to and recovery from a Marauding Terrorist Attack.

Work is ongoing with the Highland Council Head of Safeguarding to have a lesson plan on radicalisation put into the School curriculum as well as it being delivered to the University of the Highland and Islands".
