HIGHLAND COUNCIL

Committee: South Planning Applications Committee

Date: 19 March 2024

Report Title: Major Development Update

Report By: Area Planning Manager – South

Purpose/Executive Summary

This report provides an update on progress of all cases within the 'Major' and 'National' development categories currently with the Planning and Development Service for determination. The report also details progress on proposals submitted under Section 36 or Section 37 of the Electricity Act 1989 on which the Council is consulted.

Recommendation

Members are asked to note the current position of these applications.

1. Update on Progress

- 1.1 Appendix 1 contains a list of all applications for Major Development or National Development currently with the Service and awaiting determination. A brief update on the progress of these applications is provided, including a likely timescale for each case to be determined.
- 1.2 Appendix 2 provides a list of all significant Electricity Act applications. It should be noted that for many of these, the Council has already provided its response to Scottish Government. Only once Scottish Ministers determine these cases will they be removed from the list. From a performance point of view, the Council is not required to meet the same target timescales expected with planning applications.
- 1.3 Appendix 3 provides a list of all major scale planning permissions and Electricity Act consents issued within the last two years to provide members with an update on the status of these developments.
- 1.4 Details for any of these applications can be obtained through the Council's e-planning portal <http://wam.highland.gov.uk/wam> by entering the respective case reference number provided. The following abbreviations have been used in the appendices:
 - PCO – Pending Consideration
 - PDE – Pending Decision
 - S36RO – raised an objection to an application for energy generation under the Electricity Act
 - S36RNO – raised no objection to an application for energy generation under the Electricity Act
 - S37RO – raised an objection to an application for energy transmission under the Electricity Act
 - S37RNO – raised no objection to an application for energy transmission under the Electricity Act

2. Delegated Refusals of Major Applications and Current Appeals

- 2.1 Since the Major Developments Update Report presented to the last South Planning Applications Committee, no major application has been refused using delegated powers.
- 2.2 Progress with applications where the Council has raised objection:
 - 22/04580/S37 - Skye Reinforcement Project - Construct and operate approximately 110 kilometres (km) of new double circuit steel structure 132 kV overhead transmission line and associated infrastructure. Following joint meetings of North and South Planning Applications Committees on 22 March 2023 and 08 November 2023, contrary to Planning Officer's recommendation, the Council raised an objection to the application. We now await details of any further procedure from the Scottish Government's Energy Consents Unit, ahead of Scottish Government's decision on the

application.

- 2.3 For those cases under the Electricity Act 1989 where a Public Local Inquiry has been held and we are awaiting the decision of the Scottish Ministers the case will be listed in the Appendix to this report only.

3. Recent Decisions by Scottish Ministers

- 3.1 Since the report to the last committee the following decisions have been issued by Scottish Ministers in relation to applications made under the Town and Country Planning Act and the Electricity Act in the South Planning Applications Committee area:

- 21/05946/S36– Lethen Wind Farm - Erection and Operation of a Wind Farm for a period of 35 years, comprising of 17 Wind Turbines with a maximum blade tip height 185m, access tracks, borrow pits, substation, energy storage facility, control building, meteorological mast and ancillary infrastructure, Land 4700M NW Of Gamekeepers Cottage, Nairn – Scottish Ministers refused consent on 23 February 2024 without any Public Local Inquiry procedure. This decision was in line with both Planning Officer's recommendation and Committee's decision to raise an objection.
- 21/01521/S36 - Cairn Duhie Wind Farm Redesign - Erection and operation of wind farm for a period of 35 years, comprising of 16 wind turbines with maximum blade tip height of 149.9m, access tracks, borrow pits, switching station, substation, control building, temporary construction compound, battery storage infrastructure, and ancillary infrastructure, Land 2.8KM SE Of Little Lyne, Glenferness – Scottish Ministers granted consent on 2 February 2024 following a Public Local Inquiry which took place in December 2022 and was held due to the Council raising an objection.
- 21/04582/PIP - Residential development with associated infrastructure, Land 80M East of Balvonie Cottage, Inshes, Inverness – The DPEA granted planning permission on 5 December 2023 following the conclusion of a legal agreement being concluded to secure developer contributions. Subsequently the Reporter requested the Council's view on the proposal's compliance with the National Planning Framework 4 (NPF4).

4. Recommendation

- 4.1 That Members note the current position with these applications.

5. Implications

- 5.1 Resource: Not applicable.
- 5.2 Legal: Not applicable.
- 5.3 Community (Equality, Poverty and Rural): Not applicable.
- 5.4 Climate Change/Carbon Clever: Not applicable.
